DONGGUAN LEZUN TECHNOLOGY CO., LTD.

ABOUT LEZUN

18000m²

factory area

800000+

production capacity

500+

employees

11+

years Experience

Bluetooth Speaker Supplier Since 2012

Dongguan Lezun Technology Co., Ltd. , founded in 2012, is a high-tech enterprise integrating audio product development, design, production, sales and after-sales service. Its products cover a variety of indoor and outdoor Bluetooth speakers. There are four workshops for injection molding, oil injection, stick leather, assembly and packaging. The factory area covers more than 18,000 square meters, with a monthly production capacity of 800,000+ units and over 500+ employees.

Core Team

Lezun values the construction of the core team, focusing on training production skills and quality management to enhance employees' skills and quality awareness.

Technological Innovation

Lezun closely follows the trends of high-tech development, choosing suitable technologies to continuously improve and optimize its structure and production process to meet market changes.

OEM& ODM

R&D
Department

After-sales
service

400+ Stereo
models

We maintain a rigorous quality management system from sourcing to production, earning recognition from global OEM/ODM customers for high-quality products and services worldwide.

Certifications like ISO 9001, BSCI, CE, Rosh and more

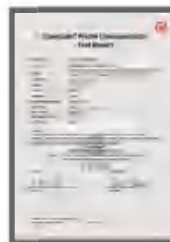

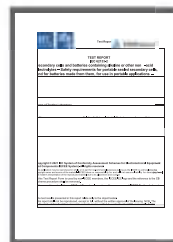

The company has passed ISO 9001 quality management system certification and BSCI, CE, Rosh and other certifications to ensure that its products meet international quality standards.

Inquire Now

The company has become a good partner for OEM/ODM customers and brother enterprises, with a good reputation and word-of-mouth. It has been adhering to providing customers with timely new technology, high-quality products and good services through scientific management. Contact us now for further cooperation.
