Forging ahead positively.

Brief Introduction

NOVAEAST has obtained ISO, BSCI, RoHS, GRS, REACH and other relevant industry certifications. Our product line covers screen protection around mobile phones, tablets, computers, smart watches, cars, etc.

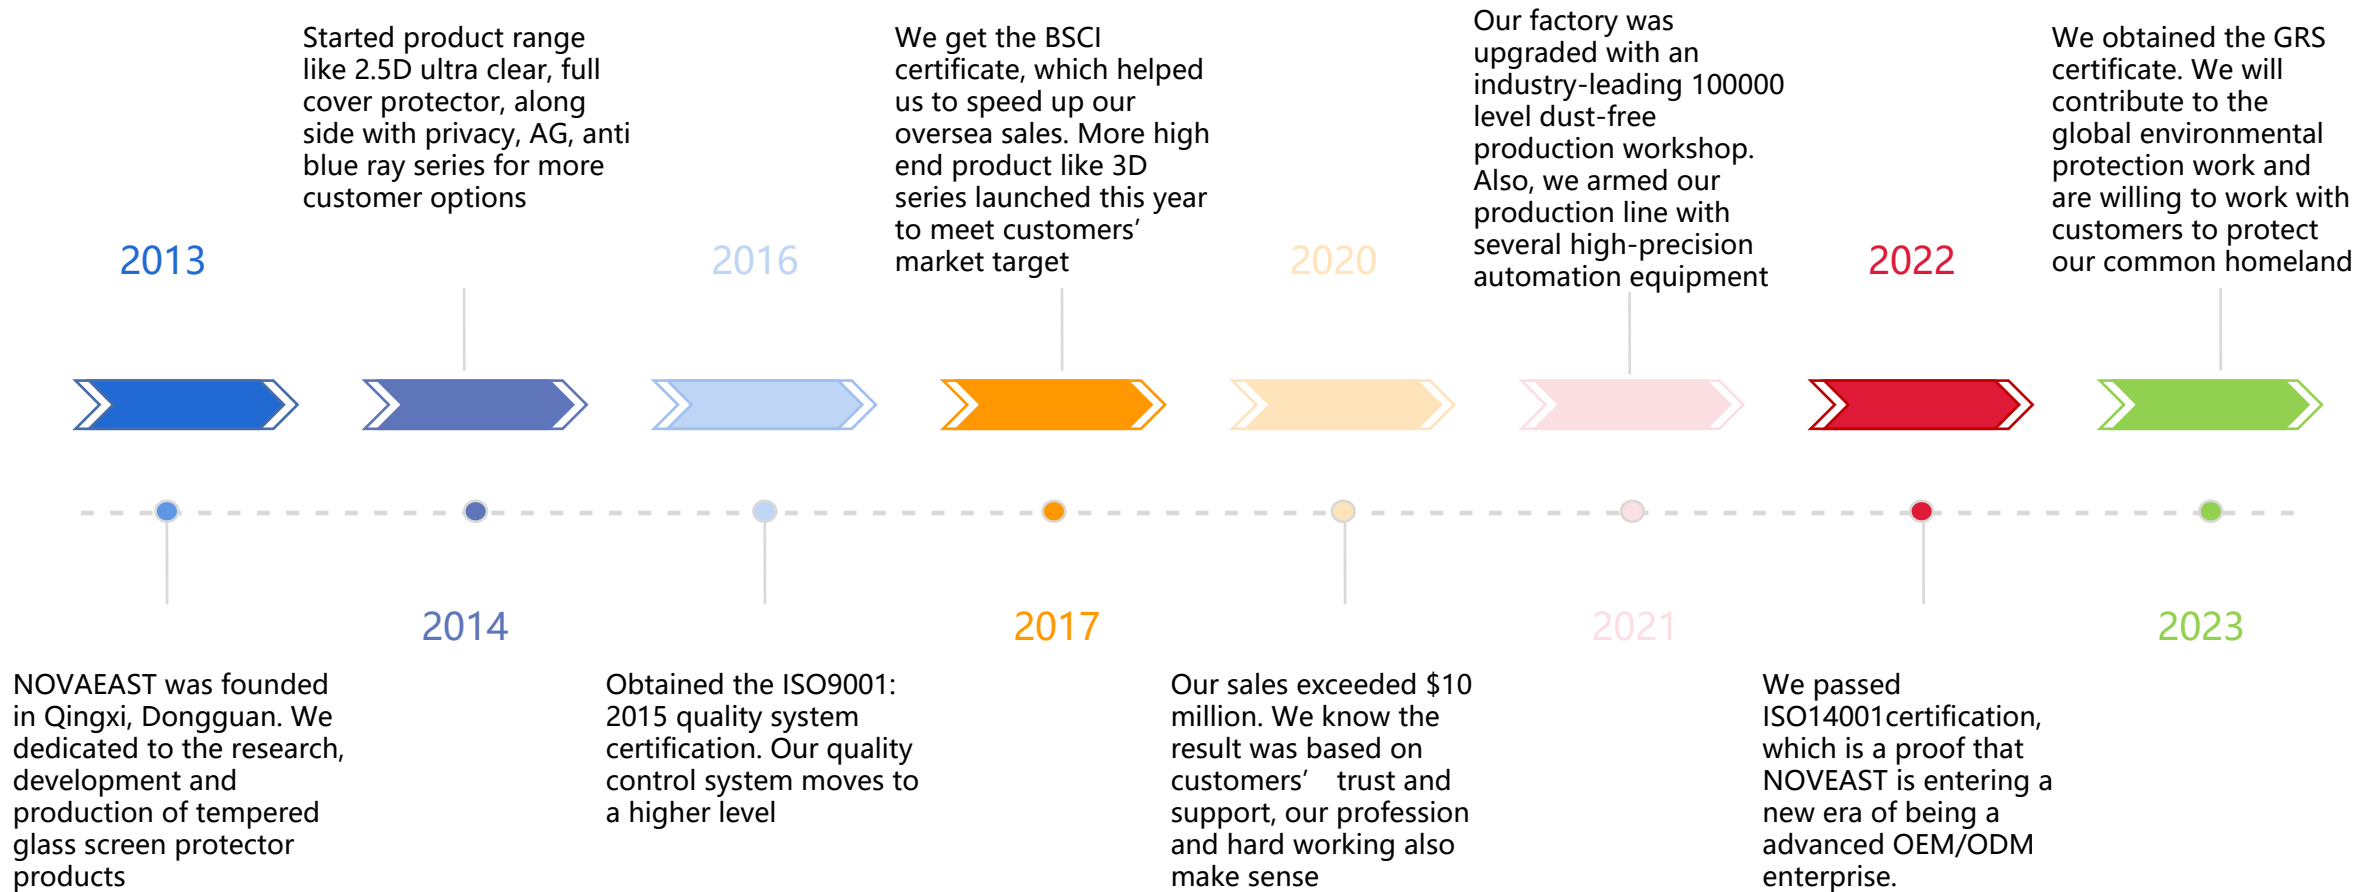

With excellent product quality and service, we have been rated as a Class A supplier by several overseas high-quality customers for many consecutive years.

NOVAEAST was established in 2013 and is located in Qingxi Town, Dongguan City, which is known as "The Most Beautiful Town in China".

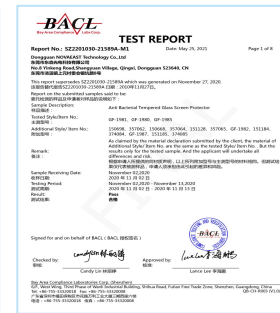

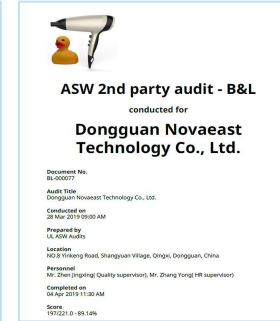

We have been focusing on the production and manufacturing of tempered glass screen protectors since establishment. Through nearly ten years of continuous efforts, we have gradually become a leading glass protector manufacturing enterprise with mature institutional processes and system management levels.

Product Guide

As a high-quality manufacturing enterprise, NOVAEAST has a wide range of tempered glass screen protectors covering 2.5D and 3D. A wide range of product categories for various brand models are all available, such as **Ultra Clear**, **Full Cover**, **Anti Blue Ray**, **Privacy**, **Anti Glare**, **Anti Microbia**, **Anti Stastic** and so on.

In addition, base on customers' different market position, we matched with various of processing like **Double Temper**, **Triple Temper**, **Electroplate**, **Sapphire Coating** and also kinds of **Installation Tools** to meet their various levels of needs and help them win the market.

The advertisement features a blue gradient background. On the left, the NOVAEAST logo is in the top left corner. Below it, two sets of iPhone 15 models are shown with their respective screen protectors. The first set is for the iPhone 15 / 15 Plus, showing a black phone and a clear protector. The second set is for the iPhone 15 Pro / 15 Pro Max, showing a dark grey phone and a clear protector. To the right of these, there is a large orange text block that reads 'We are ready for Apple New released' followed by 'for iPhone 15 Series, iWatch SE / iWatch Series 9 / iWatch Ultra 2' in blue. Below this text, three Apple Watches are shown with their respective screen protectors. The first is an iWatch SE 40/44mm with a red braided band. The second is an iWatch Series 9 41/45mm with a dark blue band. The third is an iWatch Ultra 2 49mm with an orange band. Each watch has a clear screen protector applied to its display.

We are ready for Apple New released
for iPhone 15 Series, iWatch SE / iWatch Series 9 / iWatch Ultra 2

for iPhone 15 / 15 Plus
Perfect fit the real device.

- * We supply full range OEM/ODM service. All related parts are customizable;
- * We are experienced in package, product design and manufacturing, welcome your inquiries;
- * Packages are not presented here. If any help needed, please contact us.

Advantages

1. **10 years screen protector OEM/ODM manufacturer.** Since the establishment we have been deeply engaged in the research, development and production of high quality screen protectors;
 2. **Familiar with oversea market.** We have a certain understanding of various overseas markets. Years of OEM/ODM cooperation can provide customers with market oriented services;
 3. **Trusted factory inspected by third authorities.** We have obtained ISO9001: 2015, BSCI, REACH, TUV, ISO14001, GRS and other relevant industry authoritative certifications;
 4. **Efficient data confirmation and accuracy.** We can obtain accurate data at least 30 days before the launch of new models. Flagship models like Apple and Samsung can be done even earlier to ensure rapid mass production;
 5. **We prefer high quality raw materials.** High quality raw materials are the foundation of high quality finished products;
 6. **Full chain quality control.** We arrange QC, QA, FQC in all positions and links such as incoming materials, semi-finished products, and finished products to ensure that the circulation of each link meets the standard;
 7. **High precision equipments.** A lot of effort and financial resources on equipment updating and maintenance is made every year to ensure efficient and high-quality production capacity output;
 8. **Excellent team work and services.** We adhere to a long-term talent recruitment and training plan, which also allows us to create a professional team to serve customers.
- 
- A detailed view of industrial machinery used in the production of screen protectors. The machine features various rollers, guides, and adjustment knobs, with a focus on precision and automation. The background shows a clean, industrial setting with other equipment visible.

Worldwide Exhibitions

NOVAE/ST attended major consumer electronics exhibitions around the world since 2014, where customers see us everywhere, such as the HK Fairs, CES, IFA, MMC and so on.

We started from a standard booth with 9 square meters. We gradually developed our own design style and special decoration step by step. Customers have witnessed every little growth and progress in the past year. We are so willing to share every small success with customers.
