Well-equipped with a Number of Engineers and R&D Staff
Shenzhen New Belief Technology Co. Ltd is an enterprise with tremendous strength, backed by a solid R&D department with a good number of senior engineers and over 20 R&D staff as well as a batch of updated inspection equipment.

Boasting Technical Stability and Reliability
Fully supported by multiple upstream solution partners from the US and Taiwan, and having professional technology and a wealth of practical experience, we ensure the technical stability and reliability of various products all through the years.

Strictly Operating According to ISO Standards
Meanwhile, we have passed a number of internationally recognized technical inspections. Our manufacturing department owns dedicated workshops, which are entrusted with management elites with years of experience in production control of scaled OEM for production process control. Equipped with many advanced equipment for surface treatment, logo printing, assembly and finished product testing, we strictly abide by ISO 9001 standards in our production processes.

Quality Assurance
Through many years of production improvement, we have made huge progress in process control, quality control, cost control, efficiency improvement and shortening of delivery cycle. Besides, we have successfully produced multiple deliveries of internationally top-level products for customers from Europe and the US.
