ODM Case Display

Resistant like you

Reinforced case of the Watch is made of high quality materials. The bezel (ring) itself is metal but at the same time the watch weighs little. It is water and dust resistant in accordance with IP68 certificate.*

*resistance tested at an immersion of up to 1.5 metres for no more than 30 minutes.

Wrist pulse rate

Monitor your health. With the HAMMER smartwatch you will be able to control your heart rate and blood oxygen saturation levels at any time of the day. Just put on your watch. You will also be able to track your burnt calories, your steps, the weather and your battery level.

Heart rate, saturation, calories burned

Production Line

Quality System

1 Quality system

- Based on ISO 9001:2015
- Document management system

2 Quality guarantee

- Incoming quality control
- Quality control
- Process supervision
- Abnormal handling
- Equipment calibration procedure
- Outgoing quality control

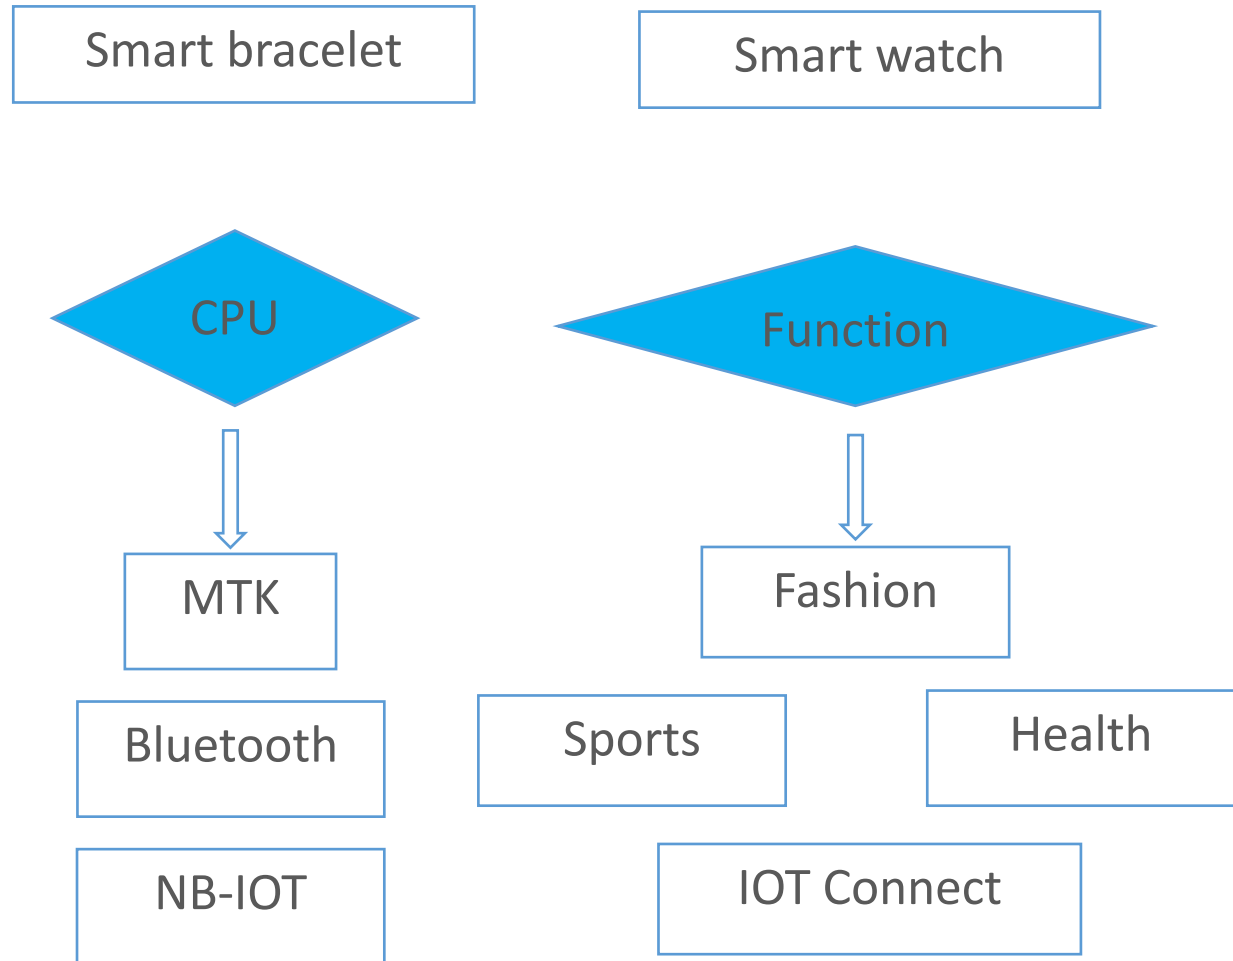

3 Quality engineering

- Reliability test
- Product recognition
- Process project tracking
- Customer satisfaction survey
- Detection instrument calibration plan
