SHENZHEN JULIANG XINGYE TECHNOLOGY CO., LTD

Company Profile

Shenzhen Juliang Xingye Technology Co., Ltd. was established in 2010 and is located in Shenzhen, China. After 15 years of development, it has now grown into a professional OEM enterprise of electronic products. The factory covers an area of 1,800 square meters and has more than 60 employees. Honest operation and mutual benefit and win-win are the cornerstones of our business. With 15 years of manufacturing experience, our quality control capabilities have reached medical-grade standards and comply with ISO9001 certification. Our products also meet ROHS/REACH (if applicable) requirements. With an excellent supply chain (90% adopt a 24-hour production system), especially in fields such as FPC, PCB, LED backlight, LCD display screens, and POGO pins. We have a fast response speed and can quickly meet the urgent order demands of customers.

Now production line configuration yamaha, hanwha high-speed placement machine, large temperature range of 20 reflow welding machine, BGA rework stations, wave soldering, washing machine, X - RAY nondestructive detector perspective, a 3 d AOI optical detection equipment, high and low temperature constant temperature and humidity box, ovens, drop test, temperature test letter, thrust tester such as production and testing equipment. The daily output of SMT assembly in the factory exceeds 3 million points. The components have a wide range of applications and can be mass-assembled from 01005 to BGA. DIP's daily production capacity of 100,000 pieces ensures the production capacity for timely delivery. Over the course of more than ten years of development, we have accumulated production experience in SMT/DIP for over 8,000 types of products. Among the assembled finished products, they cover multiple fields such as industrial control, medical care, consumer electronics, and new energy. In the future we will continue to focus on electronic products OEM, hope professional services continue to meet customer demand, in the world, the excellent enterprise grow up to be a high cost performance.

A specialized PCBA SMT assembly factory offering comprehensive, on • e-stop services including PCBA OEM with materials supply, SMT assembly, component sourcing, through-hole and SMT soldering, assembly, and testing.
