

Welcome to SimDisk Technology

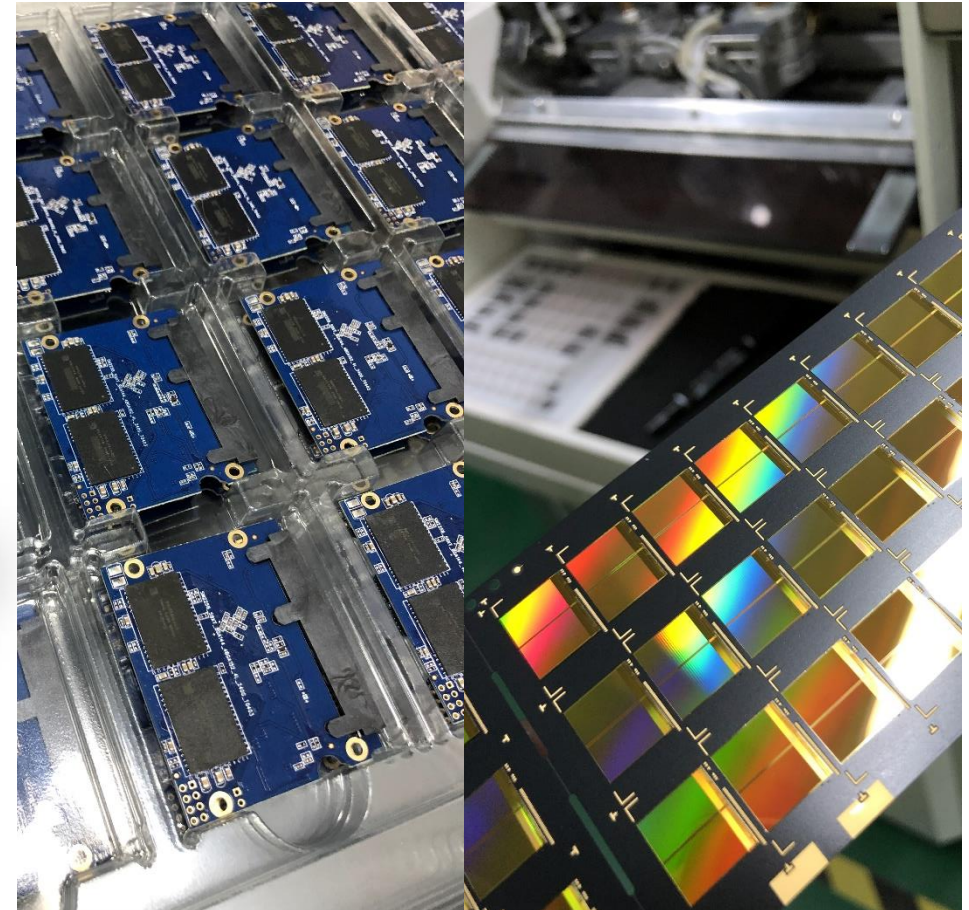

A professional manufacturer who
produce SSD, USB, TF, SD.....

About Us

We are a factory which focus on data storage research and development, manufacturing, marketing service as one of the memory chips packages, testing and using high-tech enterprises. With over 8 years of experience on manufacture of flash drive. We can produce a full set of UDP2.0,3.0, TF card, SD, BGA and other finished products like SSD, Embedded memory chip, Portable storage flash drives assembly and test.

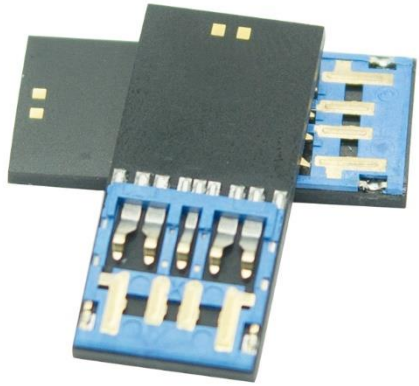

Our Product - SSD SATA 2.5" M.2 NGFF & NVMe

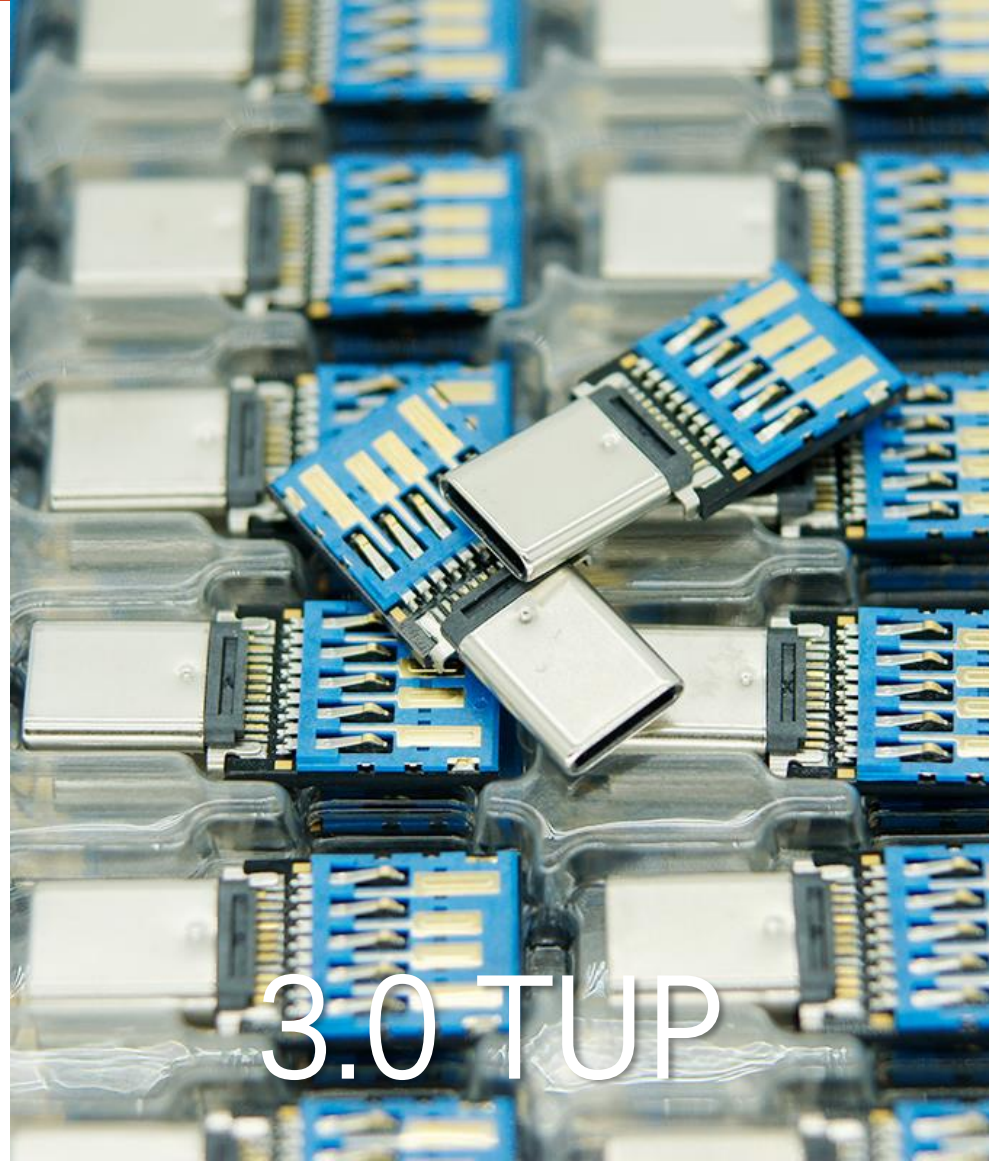

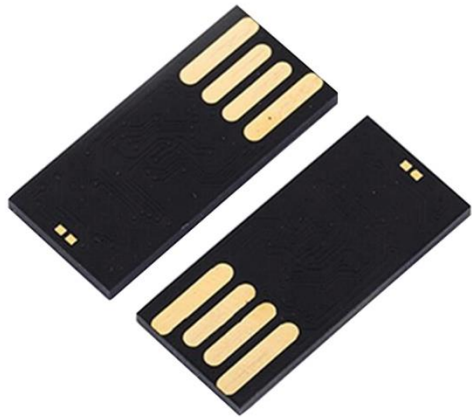

Our Product – USB Flash Drive

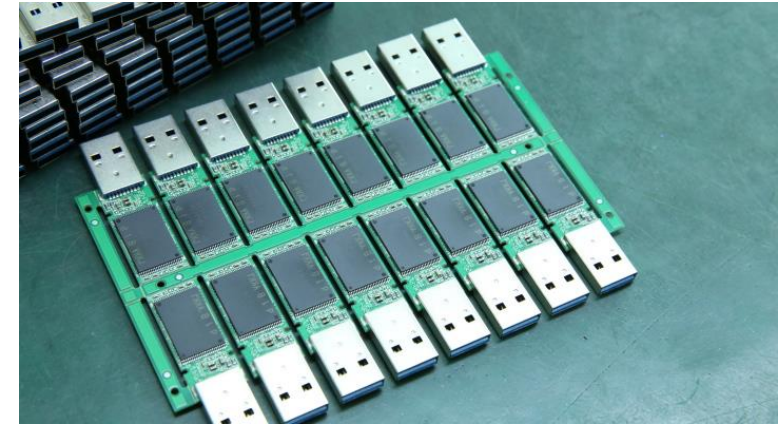

3.0 UDP

2.0 UDP

3.0 TUP

3.0 OGT

USB Flash Drive – Shell – Metal Material

USB Flash Drive – Shell – Plastic Material

USB 3.1 SSD NAND

Certification: FCC, ce, RoHS

Shell Material: Metal

Interface Type: USB 3.1

Size: 2.75" x 0.67" (inch)

weight: 24.1g

MTBF: > 2000,000 hours

Expansion Port: USB PLUS

Interface Rate: Write: 400M/S Read: 400M/S

Style: Solid State Flash Drive

Storage temperature: -40 to +85°C

Operating Temperature: 0-70°C

128GB

256GB

512GB

1TB

2TB

Our PSSD

Read

up to 400MB/s

Write

up to 400MB/s

USB 3.0

Read

120-130mb/s

Write

15-25mb/s

USB 2.0

Read 15-25mb/s

Write 3-6mb/s

High-Speed USB W/SSD NAND USB 3.1

Warranty: 3-years

SimDisk 2021

Thank you for your time
