

MARSKY SOLUTIONS

Your Reliable Quality Control Partner in China

Founded in 2008, Marsky Solutions is an independent third-party inspection company based in China. We support overseas buyers by providing supplier audits, product inspections, container loading supervision, and laboratory test coordination. Our mission is to ensure every order meets your expectations in both quality and reliability.

Quality Inspection Service

Pre-Production Inspection (PPI)

Inspection of raw materials and components before production.

Initial Production Inspection (IPI)

Performed when approximately 10% of products are completed.

During Production Inspection (DPI)

Performed when 20–80% of goods are finished.

Pre-Shipment Inspection (PSI)

Performed when 100% of goods are finished and at least 80% packed.

Inspection Criteria

Quantity, Material, Size & measurements, Weight, Workmanship, Function tests, Accessories, Colors & logo, Carton condition, Packing & marking, Barcode scan test, Shipping marks, Warehouse condition.

Supplier Audit

Supplier Audit helps uncover issues before production or order confirmation. It provides a comprehensive review of supplier capability, production conditions, and management systems.

Audit Coverage

- Supplier document review
- Factory overview
- Production line & facilities check
- Quality control system evaluation
- Environmental control system evaluation
- Raw material supply audit
- R&D capacity check

Container Loading Supervision

Container Loading Supervision ensures the correct products and quantities are safely loaded into the container in proper condition.

CLS Coverage

- Quantity as per packing list
- Carton conditions
- Opening sample cartons for verification
- Container condition, number & seal checking
- Loading method verification
- Full loading monitoring
- Final container sealing

Benefit of CLS

Correct loading prevents carton damage, ensures correct quantity, and reduces shipping risk during long-distance transportation.
