NINGBO P&M PLASTIC METAL PRODUCT CO., LTD.

NINGBO P&M PLASTIC METAL PRODUCT CO.,LTD

CORPORATE PROFILE

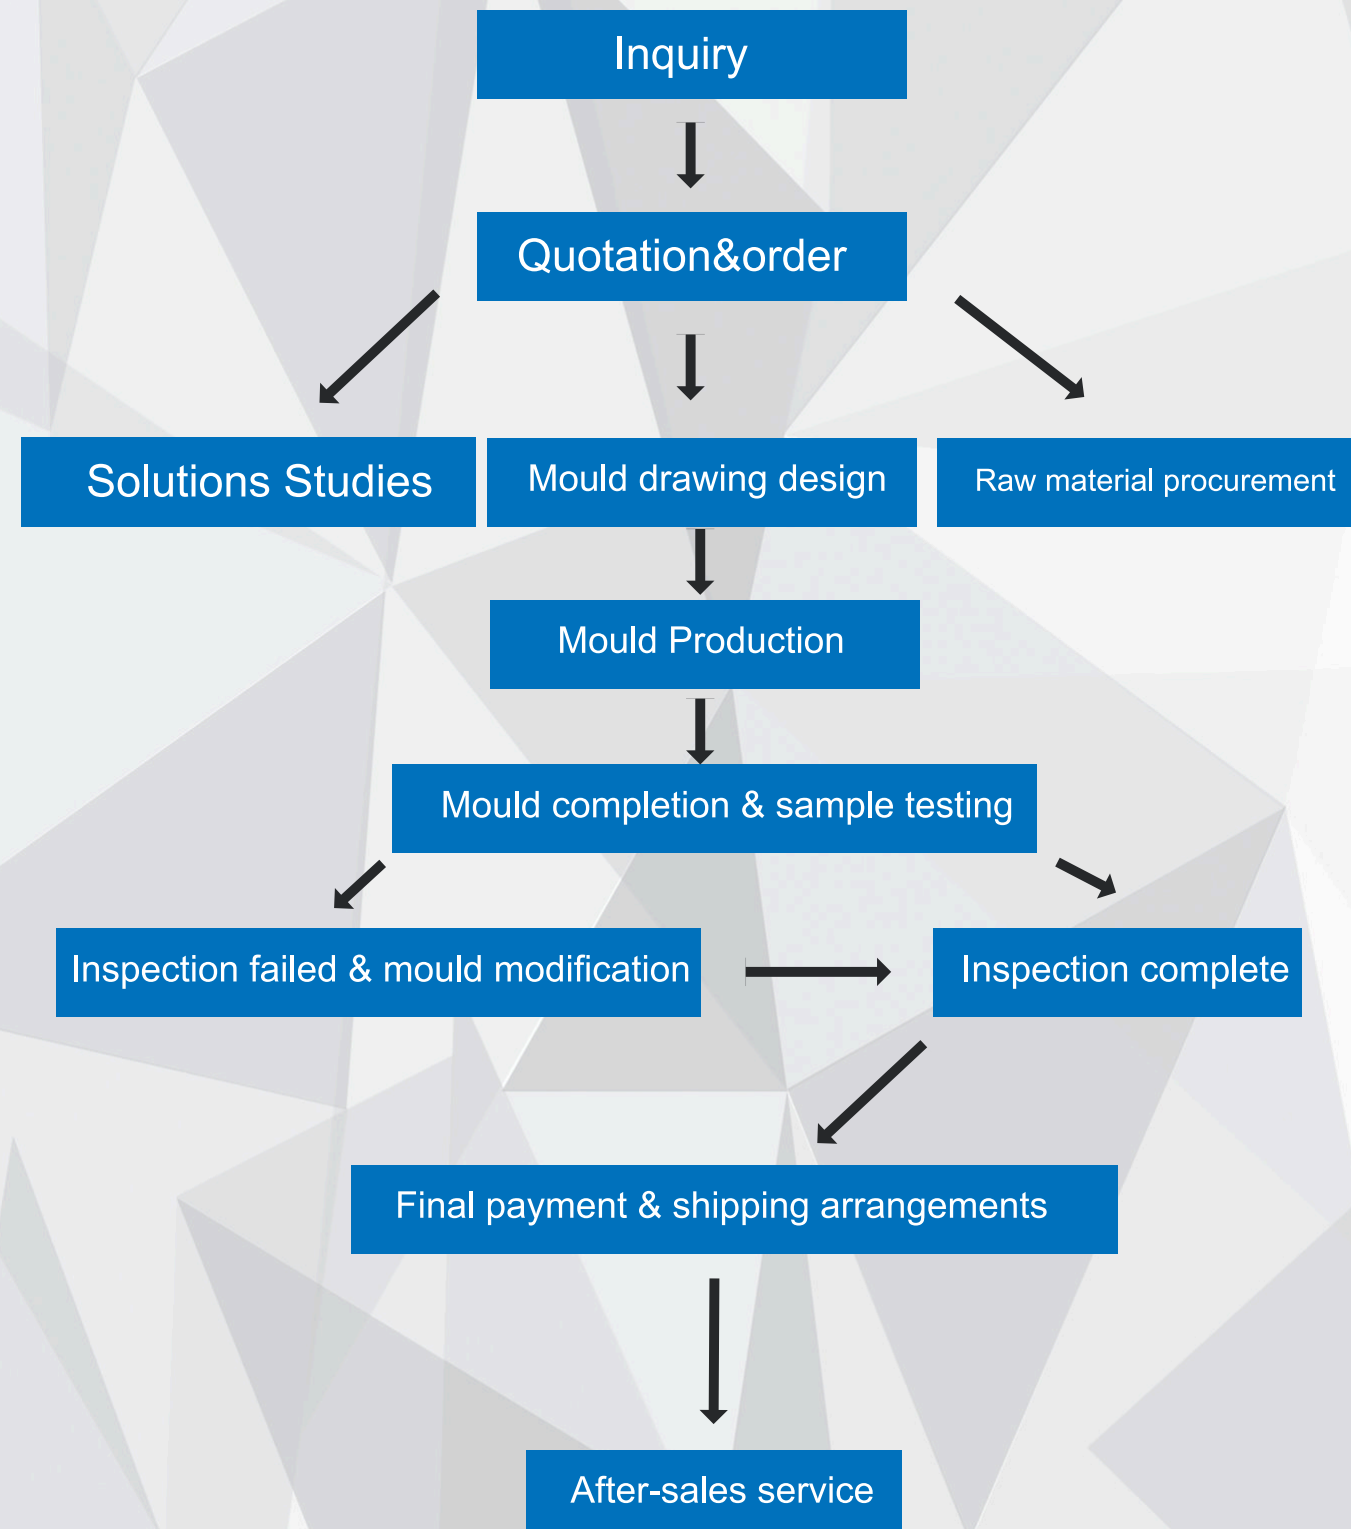

Ningbo (P&M) Plastic Metal Products Co., Ltd is created more than 10 years, which is a one-stop factory specializing in plastic products. The factory is located in Yuyao, which is known as the land of molds and the kingdom of plastics. The range of products we provide includes IT products, household appliances, communication products, auto parts, daily necessities, cosmetics, medical supplies Boutique gifts, etc. The factory has advanced production equipment and inspection instruments, multiple computer processing centers, high-speed precision carving machines, spark machines, fast and slow wire cutting machines, automatic lathes, milling machines, grinders, injection molding machines and other equipment. We have a standardized factory with complete supporting facilities for production, office and living. Based on professional technical personnel and professional management system, we constantly improve the competitiveness of enterprises and products, and constantly implement the "excellence" of Seiko. For a long time, we have devoted ourselves to the supporting work of many famous brand products and complete machine manufacturers. With our strong enterprise strength, the company has been designated as a designated supporting enterprise by many electronic manufacturers at home and abroad; The products sell well all over the country along with the machine, and are exported to all parts of the world, well received by our customers. "Only by creating value for customers, can we have the value of our existence". In order to achieve mutual win-win value, my dear friends, let us join hands in cooperation. With the greatest benefit, the company warmly welcomes you to develop and establish a wide range of business relations, mutual benefit and create a future together.
