深圳市德众恒工业有限公司
SHENZHEN DZH INDUSTRIAL CO.,LTD

COMPANY PROFILE

Shenzhen DZH Industrial Co., Ltd. was established in 2010, focusing on the research and manufacturing of scissor foot keyboards.

After decades of hard work, it has developed into a well-known domestic manufacturer of laptop and tablet peripherals.

The company adheres to the win-win development concept of "virtue, honesty, and mutual growth", and has formed a core competitive management team in product design, mold, production, and quality system.

The company passed the ISO9001:2008 quality management system certification in 2011 and has maintained its status as a "National High tech Enterprise" since 2015 due to its innovation capability and precision high-end technology level.

In 2022, it was awarded the title of Shenzhen Specialized, Refined, and New Enterprise. The company's headquarters is located in Dezhongheng Industrial Park, Shajing, Bao'an District, Shenzhen. The Huidong Industrial Park was built in 2011 and put into operation in 2013.

The factories in Shenzhen and Huizhou cover a total area of about 40000 square meters and invest a large number of automated and specialized production equipment every year, forming a production capacity of 800000 modules and 500000 keyboard products per month.

The company currently has over 200 independent intellectual property modules and finished products, as well as over 100 patents of various types.

The products produced are widely used in laptops, tablets, desktop computers, and various medical, industrial, and special industry equipment.

The products designed and manufactured by the company comply with relevant environmental regulations (ROHS, REACH, etc.) and meet the requirements of BQB, CE, FCC, KC, TLC and other certifications.

The company undertakes OEM and ODM orders from customers at home and abroad, creating value for customers with efficient and high-quality products and achieving common development.
