Development History

About Us

Established in 2011, MinersKing is a prominent Chinese mining machine supplier with a highly skilled team and extensive industry expertise. We prioritize delivering exceptional products and services to the electronics and mining sectors.

Through partnerships with industry leaders like Bitmain, MicroBT, Canaan, and more, we offer a diverse range of superior products tailored to meet our clients' specific requirements. Our comprehensive services, including testing, maintenance, and repair, ensure a seamless purchasing experience.

At MinersKing, we are unwavering in our commitment to our core values of providing cost-effective products and delivering customized services of the utmost quality.

Multiple miners in own stock

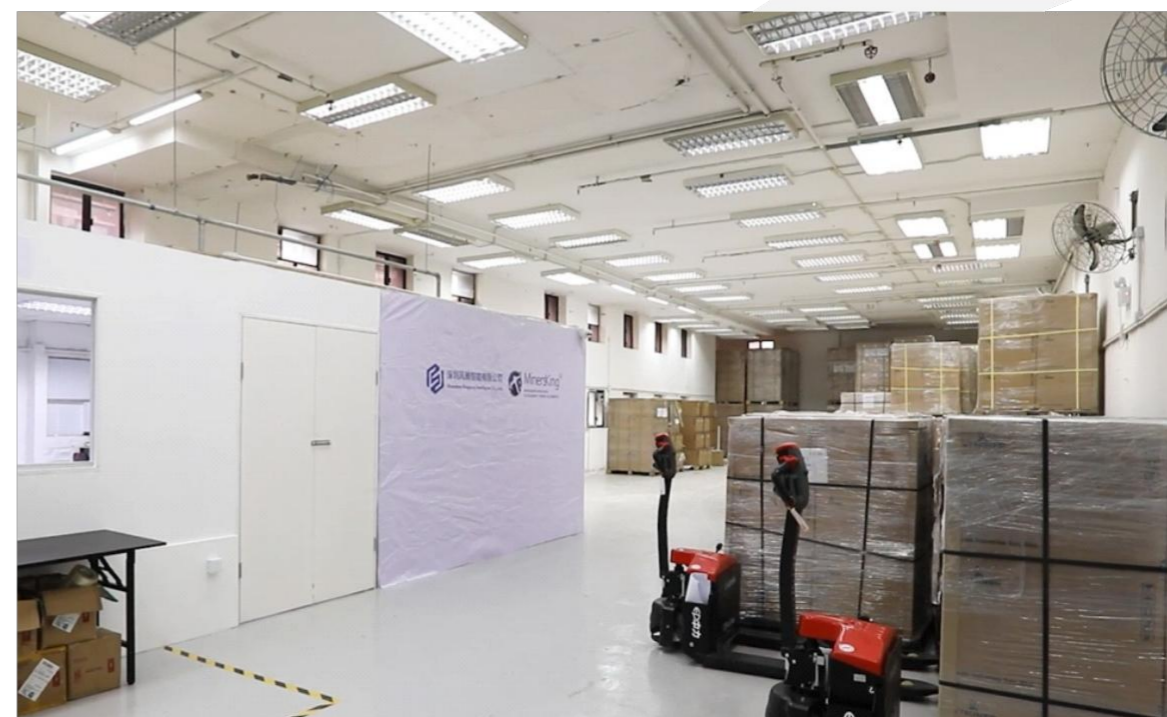

As a renowned mining hardware supplier, MinersKing has established multiple warehouses across Mainland China, Hong Kong, and Russia. Moving forward, MinersKing plans to further expand its global presence by setting up additional warehouses worldwide.

Activities

MinersKing actively participates in various events and exhibitions related to crypto mining, engaging in exchanges and learning opportunities with industry professionals to enhance the brand's global recognition.

Best Service

Apart from providing the best products and prices, the high-quality service is also a major reason why MinersKing has become a popular mining machine supplier.

To guarantee the highest service quality, the company frequently conducts training for its team members, demonstrating its dedication to providing the best service.

MinersKing offers comprehensive pre-sales and after-sales services, ensuring that customers have a great experience throughout the entire purchasing process.
