Bluetooth Sunrise Alarm Clock with FM Radio and Dual Alarms

MODEL K2

Features

- Gradual sunrise and sunset lighting
- Bluetooth speaker and FM radio
- Dual weekday/weekend alarms with snooze

Functions

Sunrise wake-up; sunset sleep mode; Bluetooth audio; FM radio; 22 sleep sounds; dual alarms; snooze; 7-color ambient light.

Core Specifications

180 × 159 × 75 mm; ABS + PC; max. 10 W; 100–240 V, 50/60 Hz; FM 76–108 MHz.

Bluetooth Sunrise Alarm Clock with FM Radio and Dual Alarms

MODEL K3

Features

- Gradual sunrise and sunset lighting
- Bluetooth speaker and FM radio
- Dual weekday/weekend alarms with snooze

Functions

Sunrise wake-up; sunset sleep mode; Bluetooth audio; FM radio; 22 sleep sounds; dual alarms; snooze; 7-color ambient light.

Core Specifications

180 × 159 × 75 mm; ABS + PC; max. 10 W; 100–240 V, 50/60 Hz; FM 76–108 MHz.

Full-Screen Bluetooth Wake-Up Light Alarm Clock

MODEL K6

tingrui

Features

- Large full-screen display
- Bluetooth, FM radio and sleep sounds
- Sunrise/sunset simulation with ambient lighting

Functions

Sunrise wake-up; sunset mode; Bluetooth audio; FM radio; 22 sleep sounds; dual alarms; snooze; bedside light.

Core Specifications

173 × 172 × 90 mm; ABS + PC; max. 12 W; 100–240 V, 50/60 Hz; FM 76–108 MHz.

Colorful Bluetooth Sunrise Wake-Up Light

MODEL K7

Features

Distinctive ocean-sunrise display
Bluetooth speaker, FM radio and white noise
Dual alarms and adjustable bedside lighting

Functions

Sunrise wake-up; sunset mode; Bluetooth audio;
FM radio; 22 sleep sounds; dual alarms; snooze;
color ambient light.

Core Specifications

173 × 172 × 90 mm; ABS + PC; max. 12 W;
100–240 V, 50/60 Hz; FM 76–108 MHz.

Full-Screen Sunrise Wake-Up Light Alarm Clock

MODEL K8

Features

- Large, easy-read full-screen display
- Simplified controls for daily use
- Sunrise/sunset lighting and sleep sound

Functions

- Sunrise wake-up; sunset mode; FM radio;
- 8 sleep sounds; dual alarms; snooze;
- 7-color ambient light.

Core Specifications

- 165 × 170 × 70 mm; ABS + PC; max. 10 W;
- 100–240 V, 50/60 Hz; FM 76–108 MHz.

Compact Half-Screen Sunrise Wake-Up Light

MODEL K9

tingrui

Features

Compact half-screen form factor
Sunrise/sunset and color lighting
White noise with dual weekday/weekend alarms

Functions

Sunrise wake-up; sunset mode; FM radio;
8 sleep sounds; dual alarms; snooze;
7-color ambient light.

Core Specifications

165 × 170 × 70 mm; ABS + PC; max. 10 W;
100–240 V, 50/60 Hz; FM 76–108 MHz.

Bluetooth White Noise Sunrise Alarm Clock

MODEL YF-01

Features

Fabric-front design
Bluetooth 5.3 audio
dual alarms and 9-color light

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

179.69 × 158.82 × 75 mm; ABS + PC; max. 10 W;
LED display; 10–480 min timer.

White Noise Sunrise Alarm Clock

MODEL YF-01-W

Features

- 9-color ambient lighting
- sunrise simulation
- sleep timer

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

Max. 10 W; 100–240 V, 50/60 Hz; LED display; 10–480 min timer; exact variant dimensions not confirmed.

Fabric Bluetooth White Noise Sunrise Alarm Clock

MODEL YF-01-C

Features

- Fabric-covered housing
- Bluetooth 5.3
- USB output and 9-color light

Functions

- Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

- 179.69 × 158.82 × 75 mm; ABS + PC; max. 10 W; LED display; 10–480 min timer.

Fabric Bluetooth White Noise Sunrise Alarm Clock

MODEL YF-02

Features

- Fabric finish
- Bluetooth 5.3
- USB output and sunrise light

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

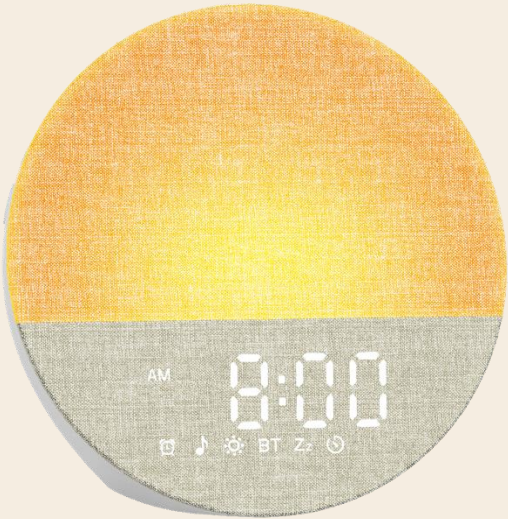

Core Specifications

Exact dimensions and packaging per YF-02 specification; LED clock display; 9-color light; 10–480 min timer.

Dual-Alarm Bluetooth White Noise Wake-Up Light

MODEL YF-04

Features

- Dual alarms
- Bluetooth 5.3
- Sunrise simulation and USB output

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

Exact dimensions per YF-04 specification; 9-color light; 10–480 min timer; USB output.

Dual-Alarm Bluetooth White Noise Wake-Up Light

MODEL YF-04-C

Features

- Dual alarms
- Bluetooth 5.3
- Sunrise simulation and USB outputt

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

Exact dimensions per YF-04 specification; 9-color light; 10–480 min timer; USB output.

Bluetooth White Noise Wireless-Charging Alarm Clock

MODEL B02

Features

- Wireless phone charging
- Bluetooth 5.3 speaker
- 10-color ambient light

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

195.5 × 110.2 × 83.5 mm; 100–240 V, 50/60 Hz; operating range -10 to +50°C; FM 76–108 MHz.

Fabric White Noise Alarm Clock with Night Light

MODEL SM-01

Features

- Fabric exterior
- Multi-category sleep sounds
- Alarm and night light

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

Fabric housing; white/pink/brown/wind noise, fan/heartbeat, nature sounds and light music.

White Noise Alarm Clock with Adjustable Night Light

MODEL SM-02

Features

Warm-to-cool night light
30 sound tracks
USB output

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

10 noise tracks + 20 nature/music tracks; daily alarm; sleep timer; USB output.

Portable White Noise Alarm Clock with Color Night Light

MODEL SM-03

Features

- Portable format
- Colorful lighting
- 16-level volume

Functions

- Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

- 10 noise tracks + 20 nature/music tracks; 5–480 min timer; alarm clock.

Round White Noise Alarm Clock with Color Night Light

MODEL SM-04

Features

Round wood-grain design
Colorful ambient light
Sleep-sound library

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

ABS + PC with wood-grain finish; alarm, sleep timer and sound/light functions per catalogue.

Round White Noise Alarm Clock with Color Night Light

MODEL SM-05

Features

- Rechargeable portable design
- 32-level volume
- Adjustable night light

Functions

- Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

- 10 noise tracks + 20 nature/music tracks; rechargeable battery; timer; 1–4 light levels.

Fabric Portable White Noise Machine with Night Light

MODEL SM-05-Fabric

Features

- Soft fabric finish
- Eechargeable portability
- Dour-level warm light

Functions

- Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

- Fabric + ABS + PC + silicone; 30 sound tracks; 32-level volume; timer.

Mini Portable White Noise Machine

MODEL SM-06

Features

Compact carry-strap design
Rechargeable power
32-level volumet

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

ABS + PC + silicone; white/pink/brown/wind noise, fan/heartbeat, nature sounds and light music.

Compact White Noise Night Light

MODEL ET-03

Features

- Compact silicone-accented body
- Qarm night light
- Vroad sleep-sound mix

Functions

- Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

- Fabric + ABS + silicone; 30 sound tracks; rechargeable battery; timer

Fabric White Noise Alarm Clock with RGB Light

MODEL SM-09

Features

Fabric finish
RGB ambient light
32-level volume

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

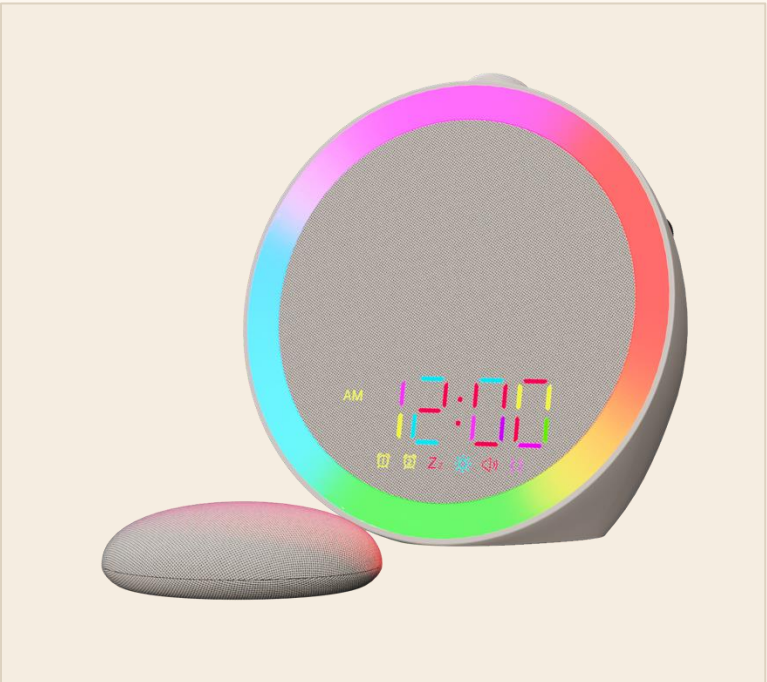

Core Specifications

Fabric + ABS + PC; alarm; timer; multiple noise, nature and music tracks.

Fabric White Noise Alarm Clock with RGB Light

MODEL YF-06

Features

- Fabric finish
- RGB ambient light
- 32-level volume

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

Fabric + ABS + PC; alarm; timer; multiple noise, nature and music tracks.

White Noise Alarm Clock with Warm Night Light

MODEL SM-10

Features

- Warm white bedside light
- 32-level volume
- djustable sleep timer

Functions

- Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

- Fabric + ABS + PC; 10 noise tracks + 15 nature/music tracks; alarm and timer.

Fabric White Noise Alarm Clock with Adjustable Night Light

MODEL RY-03

Features

- Warm-to-cool night light
- 30 sound tracks
- Saily alarm

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated..

Core Specifications

Fabric housing; 10 noise tracks + 20 nature/music tracks; 32-level volume; sleep time

Fabric White Noise Wireless-Charging Alarm Clock

MODEL B03

Features

- Integrated wireless charging
- Fabric exterior
- Alleep sounds and night light

Functions

Alarm clock; sleep-sound playback; adjustable volume; night/ambient lighting; timer; model-specific Bluetooth, USB or wireless charging as stated.

Core Specifications

Fabric housing; wireless charging; alarm; night light; multi-category sleep sounds.

Conical Night Light Alarm Clock

MODEL CH-02

tingrui

Features

Distinctive triangular form
Adjustable night light
Sual schedule alarms

Functions

12/24-hour time display; alarm scheduling; snooze;
model-specific night light, temperature, calendar,
FM radio or USB output as stated.

Core Specifications

150 × 75 × 69 mm; ABS + PC; max. 10 W;
100–240 V, 50/60 Hz.

Wooden RGB Digital Alarm Clock

MODEL CH-03

tingrui

Features

Genuine wood housing
Colorful time display
Sual alarms

Functions

12/24-hour time display; alarm scheduling; snooze;
model-specific night light, temperature, calendar,
FM radio or USB output as stated.

Core Specifications

Wood housing; 12/24-hour display; weekday/weekend
dual alarms.

RGB Night Light Alarm Clock

MODEL CH-04

Features

- Color perimeter lighting
- USB power output
- Xompact display

Functions

12/24-hour time display; alarm scheduling; snooze; model-specific night light, temperature, calendar, FM radio or USB output as stated.

Core Specifications

160 × 80 × 30 mm; approx. 165 g; 100–220 V input; 5 V/2 A adapter; USB 5 V/1 A.

Color LED Digital Alarm Clock

MODEL CH-05

Features

Eight time-display colors
115 dB loud alarm
Aimpe controls

Functions

12/24-hour time display; alarm scheduling; snooze;
model-specific night light, temperature, calendar,
FM radio or USB output as stated.

Core Specifications

167 × 30 × 80 mm; ABS + PC; max. 10 W;
100–240 V, 50/60 Hz.

Large Mirror-Display RGB Night Light Alarm Clock

MODEL CH-06

Features

- Large mirror display
- Wight light colors
- Sual schedule alarms

Functions

- 12/24-hour time display; alarm scheduling; snooze;
- model-specific night light, temperature, calendar,
- FM radio or USB output as stated.

Core Specifications

- ABS + PC; large mirror LED display; daily/weekday/
- weekend alarm scheduling.

RGB FM Radio Alarm Clock

MODEL CH-07

Features

- Eight-color time display
- FM sleep radio
- Xcompact form

Functions

- 12/24-hour time display; alarm scheduling; snooze;
- model-specific night light, temperature, calendar,
- FM radio or USB output as stated.

Core Specifications

- 147 × 61 × 35.5 mm; ABS + PC; max. 10 W; 100–240 V, 50/60 Hz; FM 76–108 MHz.

RGB Night Light FM Radio Alarm Clock

MODEL CH-09

Core Specifications

FM 76–108 MHz; dual weekday/weekend alarms; RGB display and ambient light.

RGB Night Light FM Radio Alarm Clock

MODEL CH-01

Features

- Circular mirror design
- Cool/warm fill light
- Four-level display dimming

Functions

- 12/24-hour time display; alarm scheduling; snooze;
- model-specific night light, temperature, calendar,
- FM radio or USB output as stated.

Core Specifications

- Mirror display; dual alarms; daily/weekday/weekend
- schedules; snooze.

Ultra-Thin Smartphone-Style Mirror Alarm Clock

MODEL CH-08

Features

- Slim phone-inspired design
- Multiple finishes
- Xlear mirror display

Functions

- 12/24-hour time display; alarm scheduling; snooze;
- model-specific night light, temperature, calendar,
- FM radio or USB output as stated.

Core Specifications

- Mirror LED display; dual daily/weekday/weekend
- alarms; white or colorful time display options.

TV-Style Mirror Alarm Clock

MODEL CH-10

Features

- TV-inspired mirror form
- Xalendar and temperature display
- Sual alarms

Functions

- 12/24-hour time display; alarm scheduling; snooze;
- model-specific night light, temperature, calendar,
- FM radio or USB output as stated.

Core Specifications

- Time, weekday, date and month display; °C/°F
- temperature; weekday/weekend dual alarms.

Triangular Wood-Grain RGB Alarm Clock

MODEL HM-02

Features

Wood-grain triangular housing

Xolorful time display

Aimple snooze

Functions

12/24-hour time display; alarm scheduling; snooze; model-specific night light, temperature, calendar, FM radio or USB output as stated.

Core Specifications

ABS + PC with wood-grain finish; 12/24-hour display; dual weekday/weekend alarms.

16-Inch RGB LED Digital Wall Clock

MODEL PH-01

Features

- Large long-distance display
- Wight time colors
- Perimeter night light

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

16-inch class; ABS/PC; RGB LED display; remote control; dual alarms; DST; countdown.

RGB LED Wall Clock with Temperature Display

MODEL PH-02

Features

- Large long-distance display
- Eight time colors
- Perimeter night light

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

16-inch class; ABS/PC; RGB LED display; remote control; dual alarms; DST; countdown.

10.5-Inch RGB LED Wall and Desk Clock

MODEL PH-03

Features

- Large long-distance display
- Eight time colors
- Perimeter night light

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

16-inch class; ABS/PC; RGB LED display; remote control; dual alarms; DST; countdown.

12-Inch RGB Night Light Wall Clock

MODEL PH-05

Features

- Eight-color time display
- Warm night light
- Remote control

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

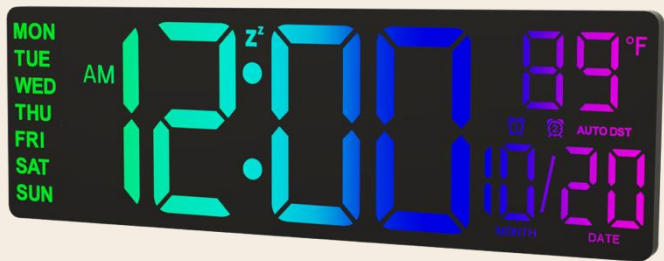

Core Specifications

12-inch class; RGB LED display; auto light sensing; DST; adjustable brightness.

16.5-Inch RGB LED Wall Clock

MODEL PH-06

Features

- Large RGB display
- 11 light modes
- Dual alarms and timer

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

16.5-inch class; LED display; remote control; temperature; 1–99:59 timer; DST.

30-Inch Large LED Wall Clock

MODEL PH-07

Features

- Oversized long-distance visibility
- Night light
- Timer functions

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

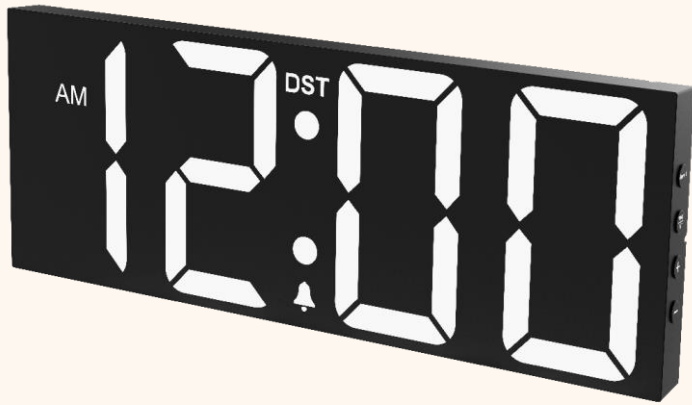

Core Specifications

30-inch class; white/red/blue display options; remote control; temperature; dual alarms; DST.

22-Inch Large LED Wall Clock

MODEL PH-08

Features

Large-format display
Count-up and countdown
Night light

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

22-inch class; single-color options; remote control; alarm; DST; count-up/countdown.

15-Inch LCD Digital Wall Clock

MODEL PH-09

Features

- Oversized LCD time display
- Long battery operation
- Temperature and calendart

Functions

- Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

- 15-inch class; 4 × AA power plus CR2032 memory battery; 12/24-hour; DST.

10-Inch Round RGB Wall Clock

MODEL PH-10

Features

- Round color display
- 11 display colors
- Synchronized ambient lighting

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

10-inch class; RGB LED display; 11 light modes; dual alarms; timer; DST.

8-Inch Round RGB Wall Clock

MODEL TY-06

Features

- Compact round format
- 11 display colors
- Synchronized ambient lighting

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

8-inch class; RGB LED display; 11 light modes; dual alarms; timer; DST.

13-Inch RGB LED Wall Clock

MODEL PH-11

Features

- Eight selectable color modes
- Large display
- Temperature and dual alarms

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

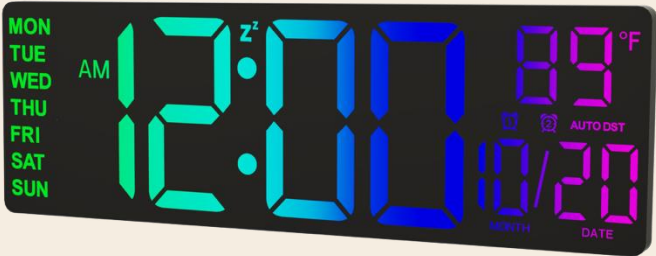

Core Specifications

13-inch class; RGB LED; five brightness levels; remote control; timer.

12-Inch RGB LED Wall Clock

MODEL PH-12

Features

- Large colorful display
- Eight color modes
- Dual schedule alarms

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

12-inch class; RGB LED; five brightness levels; daily/weekday/weekend alarms.

18-Inch RGB Wall Clock with Bluetooth Time Sync

MODEL PH-13

Features

- 18-inch display
- Bluetooth time synchronization
- Loud alarm

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

18-inch class; RGB LED; warm white night light; five brightness levels; DST.

8-Inch Dual-Color Round Wall Clock

MODEL PH-14

Features

- Compact round display
- Warm night light
- 10-level light control

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

8-inch class; dual-color LED display; five display brightness levels; DST.

16-Inch Digital Calendar Wall Clock

MODEL PH-17

Features

- Large calendar display
- Temperature
- Weekday-aware alarm

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

16-inch class; LED/LCD calendar display; date, weekday, temperature and DST.

16-Inch Digital Calendar Wall Clock

MODEL

Features

- Large calendar display
- Temperature
- Weekday-aware alarm

Functions

Time display; adjustable brightness; alarm; DST; model-specific temperature, calendar, remote control, night light and timer functions as stated.

Core Specifications

16-inch class; LED/LCD calendar display; date, weekday, temperature and DST.
