Company Profile

By 2022, with over 8 years in the field of smart wearable, Shenzhen Linwear Innovation Technology Co., Ltd. is committed to becoming a global innovative technology company to understand customers' needs and lead the fashion trend of smart watches. Over the years, although the company name was changed, our production team, R&D team, quality control team and APP team have been developing and growing much stronger, concentrating on providing hardware and software solution services, as well as final product OEM/ODM services.

We independently researched and developed the pedometer algorithm, sleep algorithm, heart rate algorithm, ASR core algorithm .etc, and corresponding APP. Linwear has been persisting in R&D and production integration and possessed multiple invention patents and software copyrights.

Linwear products are manufactured under strict accordance with ISO9001 quality management standard systems, with standard dust-free workshop of 10000 levels. There is a total of 6 production lines in our factory, which can support the production of over 5 million pieces of smart watches and smart bracelets annually.

We have been exporting to more than 35 countries and regions including Europe, America, Australia, Asia Pacific, and Africa. The majority of products have complied with CE, RoHS, FCC, BIS, Reach standards from authoritative international labs. Till now, more than 100 partners have built long-term cooperation relationships with Linwear with mutual benefits, including some famous first brands.

"More innovative in products, more professional in services", is the principle that Linwear always strives to achieve. After years of hard work and continuous technology innovation, with its one-stop service of "Design+R&D+Production", Linwear has become one of the leading suppliers in the smart wearable industry.

深圳领为创新科技有限公司（领为创新/LINWEAR），是近年来迅速崛起的创新型科技智能穿戴品牌企业。公司拥有完整、科学的质量管理体系，在智能手表、智能手环、通信类智能穿戴设备、健康监护智能穿戴、智慧医疗穿戴、健康监护软件系统及云端服务等领域拥有十年以上技术沉淀和行业经验。
