Company Profile

Senda Electronics Group was founded in August, 2007 in Shenzhen, China. We are a professional manufacturer for indoor and outdoor digital signages. With one plant in Dongguan for outdoor digital signage and one plant in Shenzhen for indoor digital signages, we provide professional OEM & ODM service home and abroad.

As a professional display solution manufacturer in China, we are pioneer in the development of new technologies and solutions. Our products are well recognised with state level units. Our products' quality is guaranteed by rules, regulations and standard operation process. Many of our products have passed CE, RoHS, FCC and CCC. Our company is also with ISO 9001:2008; ISO 14001:2004 and OHSAS 18001.

Based on the concept " TECHNOLOGY LEADS TO FUTURE ", Senda Electronics provides products & services of excellence.
