# About UMIDIGI

UMIDIGI is a mobile phone internet company, which is focused on the global market and concentrates on being the most user-centric mobile internet brand, aiming at creating thrilling, touching and premium products with super user experience and affordable prices. Our goal is to make quality technology accessible to everyone.

UMIDIGI also is a global electronics and technology service provider that delivers the latest and most exquisite mobile electronic devices in over 220 countries in global range. UMIDIGI is dedicated to delivering customers with the most extraordinary mobile experience through meticulous designs and smart technology.

# Company Structure

# FACTORY

---

UMIDIGI's cellphone factory is located in Longgang District, Shenzhen, covering an area of more than **8,000 square meters**, with more than **40 sets** of advanced production and assembly equipment and testing equipment, and more than **500 employees**. With **6 assembly lines** and **3 packaging lines**, the maximum monthly output of smartphones is about **300,000 units**, and UMIDIGI is gradually expanding its factory to meet the demand of the global market sales scale.

# SERVICE TEAM

---

The professional customer service team of more than **20 people**, for users to solve pre-sale, sale, and after-sales problems, to provide professional quality service so that each consumer feels at ease to buy products, and peace of mind to enjoy a full range of **one-stop service**.

# R&D TEAM

---

UMIDIGI currently has a professional R&D team of more than **30 people**, engaged in cell phone **design and development**, as well as the development of smart peripheral and wearable device related products, the team is strong.

# QUALITY CONTROL

UMIDITI has a QA team with 18 experienced professionals. Every cell phone has to go through strict tests before leaving the factory, including free and cyclic drop tests, electromagnetic compatibility tests, extreme conditions tests, temperature, and humidity tests, bright light tests, aging tests, etc. The products are allowed to leave the factory only after they have gone through severe reliability tests and are confirmed to be correct.

# CERTIFICATIONS

Our products have worldwide certifications for adaptation to the continental regions such as, the European (CE) and (RoHS), the American (FCC), the Japan (TELEC).
