SZTPS COMPANY INTRODUCTION

History

Founded in 2008, SZTPS is a company integrating R & D, production and sales of digital products, including Tablet PCs, Laptops, and other consumer electronic products. From 2009 to 2013, SZTPS mainly produced Tablet PC & Laptop, and in 2010 SZTPS began to launch a series of Tablet PCs. As of 2014, SZTPS's product line had covered **Android Tablets, Windows 2-in-1 Tablets and Windows Laptops**, and became a partner of Microsoft and Intel.

Now SZTPS is one the top 3 factories of **OEM&ODM** Tablet PCs and Laptops.

Capacity

With a workshop around 5,000 square meters and 8+3 high-efficiency production lines, dust-free room, a quality control team of more than 120+ staff, an advanced equipped laboratory. SZTPS can reach very high production capacity and produce high quality products. SZTPS has a software and hardware R&D team with average experience over 10 years, and has launched technical cooperation with a number of domestic top R&D centers and manufacturing companies.

Business Philosophy

Adhering to "**Quality, Service and Openness**", SZTPS has been committed to providing good user experience and service. With ISO 9001 effectively implemented, SZTPS can ensure efficient production and high quality products, which conform to **CE, RoHS, and FCC** requirements to meet our worldwide market. Due to its openly welcome of **OEM & ODM** customization orders, SZTPS has cooperated with a large number of both domestic and international customers.
