COMPANY PROFILE

SENZA
CLEAN AIR. BETTER LIFE.

Hebei SEN Technology Co., Ltd. was founded in 2018. The company is a comprehensive enterprise integrating research and development, production, and sales of various air filters. The company has a production site of more than 3,600 square meters and a research laboratory of more than 1,200 square meters. It has advanced testing equipment including a standard test chamber with a volume of 30m^3 and an experimental chamber with a volume of 3m^3 for product performance research and testing as well as wind tunnel experiment systems for product detection and raw material inspection equipment.

The company has been awarded honors such as high-tech enterprises, national technology-based small and medium-sized enterprises, and holds multiple patents. The company has successfully passed the certification of ISO9001 quality management system.

The company is located in the Science Park of Baoding University in Hebei Province with complete supporting facilities adjacent to Xiong'an New Area at the central location among Beijing-Tianjin-Hebei region. In addition to designing and producing filter units for clean engineering ventilation equipment, the company also specializes in researching & developing household purification products as well as residential ventilation filtration systems.
