

U-BONDS HARDWARE CO., LTD.

FACTORY PROFILE

Jiangmen U-BONDS Hardware Co.,Ltd. was established in 1998. Factory covers an area of 12000 square meters with about 200 workers and the annual output of our factory amounts to 50 million. We are a professional manufacturer of stainless steel coffee pot and coffee press. Our products are mainly export to Europe and USA markets and are meet with a warm reception of the market. In particular, in double wall coffee press and airline pot, our factory has obtained a number of design patents and practical patents.

Our products are made of top quality food grade raw materials to ensure product functionality and quality, semi-finished goods and finished goods are 100% inspected and tested for 2 times of high pressure testing to avoid water and air leakage.

Every piece of product has been stretched, welded, polished, test with pressure and water, and well packed. With all these processes, we guarantee every piece of product will be qualified when our customers receive them.

The finished products produced under the strict internal control and inspection standards of our factory have been highly praised by our competitors and buyers. Our company has developed the internal control standards of double wall coffee press and coffee pot series, leading the industry.

Years after years working in the USA and Europe markets, we learn, we design, we innovate to better service our customers.

In conclusion, through manufacturing qualified and fine stainless steel products, U-Bonds are willing to contribute to your success and make your future bright and shine!

COOPERATION BRANDS

STAINLESS STEEL DOUBLE LAYER FRENCH PRESS INTERNAL CONTROL STANDARD

At present, in the stainless steel double-layer press market, there are differences in product quality standards.

Ours target:

- Build up the trust,fair competition for better market condition.
- Strengthen the reliable quality system.
- Emphasize strongly on the quality assurance.
- Protect the legitimate consumer right and enterprise value.
- Provoke the strategy of “Quality strengthens the country” and “Quality strengthens the enterprise” .
- give the confidence to our customers with our 20 years'export experience in high quality products.

All the sizes and models of stainless steel double layer French press (inner layer and outelayer) are using the 304 (18/8), thickness 0.8 MM branded materials in which met the EU Food Standard (except customer nominated material).

Bottom plate, Spout, Cover is using 18/8 0.7MM material. The mesh is using 80 gauge/0.25MM thickness material.

All the food-contain accessory is using plastic and silicon in which met the new EU food standards.

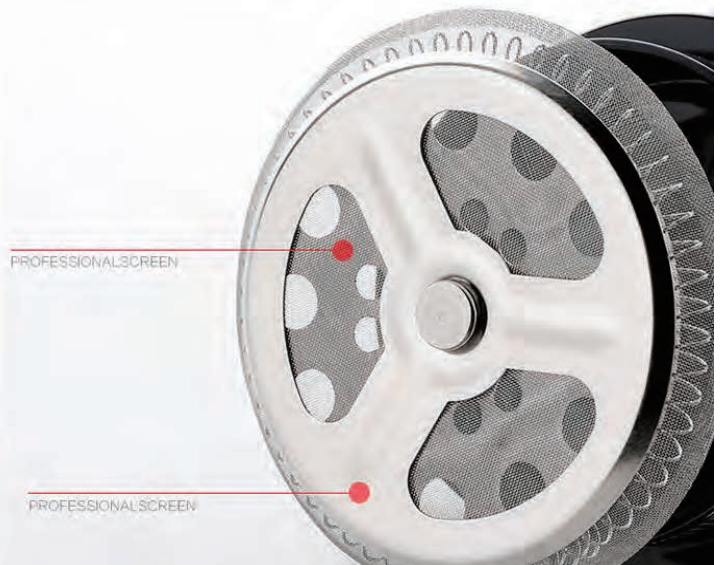

To ensure product functionality and quality, semi-finished goods and finished goods are 100% inspected and tested for 2 times of high pressure testing to avoid water and air leakage.

French Press temperature test, in the room temperature 22-26 Celsius condition, 95-97 Celsius water pull into the pot, in 2 hours, temperature will be remained 60-66 Celsius (by random check).

The welding tension of the handle and body in the French Press is reaching 15KG with EU standard by random checking.

The cleanness of the product surface is specular reflection (or drawing brushed), inside is sanding effect.

DOUBLE WALL FRENCH PRESS

MODEL NO.: CF-1019C

- **PRODUCT SIZE:** 10.4*16 / 10.4*19CM
