SHENZHEN INNOVATION BO CHUN DIGITAL TECHNOLOGY CO., LTD

深圳市创新宝骏数码科技有限公司

We are Shenzhen Innovation Bo Chun Digital Technology Co., LTD., founded in 2011, R & D center design institute is set up in Shenzhen Bantian, setting up factory one and factory two manufacturing center. We established a strategic partnership with Swarovski Element License in 2014, specializing in design, R&D, production and sales of mobile phone digital accessories, now we have our own brands - Kingxbar & PQY.

我们是深圳市创新宝骏数码科技有限公司，成立于2011年，研发中心设计院设立在深圳坂田，设立一厂、二厂生产制造中心。2014年与施华洛世奇元素授权证书建立战略合作伙伴关系，专业从事设计、研发、生产以及手机数码配件的销售，现自有品牌——Kingxbar & PQY。

Since its establishment, Kingxbar has been committed to the research and development of mobile digital accessories, consumer electronic products, and is loved by the majority of fashionable women. Kingxbar is currently the only brand of consumer electronic products that adopts Swarovski Crystal Elements in all of its research and development product lines, and is also designing and empowering the crystal elements and all kinds of CMF process elements for its customers.

Kingxbar金缔斯成立以来，致力于研发移动数码配件、消费类电子产品，并被广大时尚女性所喜爱，是目前消费类电子产品唯一所有研发产品线都采用施华洛世奇水晶晶元素的品牌，同时也在为客户设计赋能水晶晶元素及各类CMF工艺元素。

So far, we have cooperated deeply with Apple authorized distributors and channel brands in China, and cooperated with well-known domestic mobile phone brand manufacturers. The international market is mainly developed in North America, Europe, the Middle East and Asia Countries and regions. At present, our factory accessories products have reached more than 100 million pieces of product scale, accumulated over the years of technical experience in the industry products, the quality of our products has been sufficiently verified. The supply chain of materials and CMF surface processing is mature, and the customers we serve have obtained sufficient trust and support.

自成立以来，我们与中国苹果授权经销商和渠道品牌深度合作，并与国内知名手机品牌厂商合作，在国际市场开拓的地区有北美、欧洲、中东及亚洲国家地区为主，目前我厂出厂配件产品已达过亿件的产品规模，多年来积累的行业产品的技术经验，我们生产的产品质量已经得到足够的验证，材料及CMF表面工艺处理的供应链成熟，服务的客户都取得了足够的信赖与支持。

Original Design 设计原创

Our R & D center is located in Longgang Bantian, with more than 20 members engineering department and vision department, so that the products can be closer to clients' design not only from mold design, production and manufacturing but also to help customers to research and design products, incubate IP image and content, to achieve diversified design and development services. So far, the design institute has developed more than 2000 mobile phone accessories and hundreds of OEM/ODM independent researches.

我司研发中心坐立于龙岗坂田, 设有工程部、视觉部, 拥有二十员左右的工程及设计力量, 让产品在模具设计、生产制造还原度可更接近客户设计, 同时也帮助拥有强大渠道能力的客户研发设计产品、孵化IP形象及内容, 实现多元化的设计开发服务, 目前设计院已服务超2000款手机配件产品, 数百款OEM/ODM的产品研发设计。

At present, we have successfully incubated IP images: Seven, Balter, Pink, COCO, XIQEE, Qilly Qcci, etc.

目前已成功孵化IP案例: 福萝卜、乖洛、祈年、COCO、西奇星球、Q里Q气等。

Imported printing equipment

进口印刷设备

Our company uses imported MIMAKI equipment:

Imported MIMAKI printing equipment has the advantage of being more precise than domestic equipment, and the imported ink color of the nozzle is more delicate. It is generally used in products with higher color and tolerance precision. The printing tolerance is only within 0.1mm. At the same time, the imported ink is delicate. And saturation control also far exceeds than the domestic equipment.

我司采用进口MIMAKI设备：

进口MIMAKI印刷设备拥有比国产设备更为精密，喷头进口油墨色彩更为细腻的优势，一般应用于色彩及公差精密度更高的产品上，其中印刷公差仅在0.1mm内，同时进口油墨的细腻及饱和度控制也远超国产设备。

Domestic printing equipment

国产印刷设备

Our company uses domestic printing equipment from Jingutian and Chunyu Qiufeng.

According to the product pattern UV printing and simultaneous UV light curing, more precise and delicate flat printing and relief printing products can be printed on the flat surface. Among them, our IML double-sided laminate products will also use Chunyu Qiufeng to print sheets.

我司采用金谷田、春雨秋丰国产印刷设备：

根据产品图案UV打印，同步紫外线光固化，可在平面印刷较为精密且细腻的平面印刷及浮雕印刷产品，其中我司IML双面覆膜产品也会采用春雨秋丰进行印刷片材。
