# About us

China Vast Logistics Co., Ltd. was founded in 2005, which was reorganized in 2012, the brand and development direction taking shape. Half of the existing employees have more than 10 years of rich experience and profound expertise. Starting with shipping containers, the company actively explored the development of air freight and railway businesses. After years of deep cultivation in the traditional logistics market, China Vast Logistics has launched a cross-border e-commerce logistics project since 2016. Going through pilots and practice, currently, it has grown into a well-known brand and expert in maritime e-commerce logistics in northern China. In the future, the team of China Vast Logistics will continue to firmly move towards the goal of providing customers with comprehensive logistics solutions as an industry expert.

## Global Networks and Advantages

The networks of agents cover major ports on all continents in the world, which can provide customers with EXW, CIF, CFR, FOB, DDU, DDP and cross-border e-commerce logistics supply chain and other all-round services

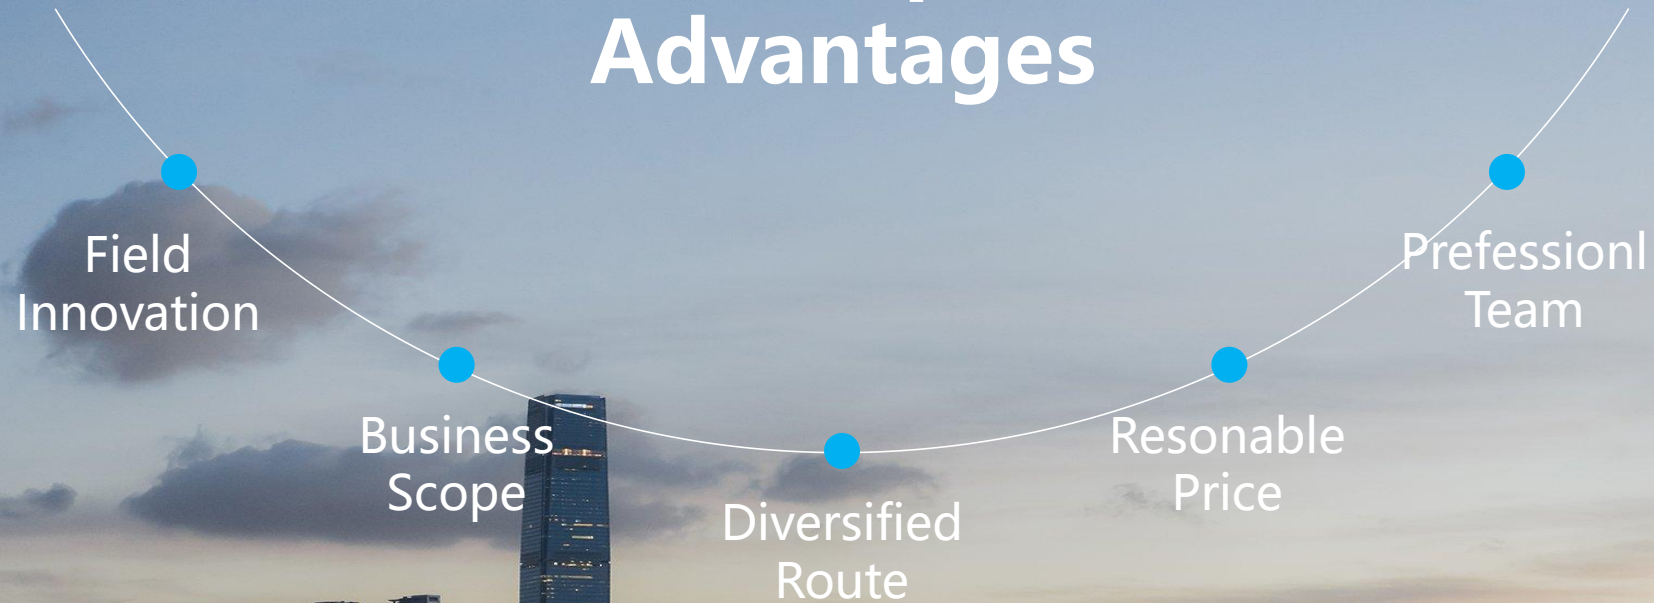

The networks of domestic port agents all over China can provide customers from any region with convenient and worry-free service.

# Product Service

---

## Core Competitive Advantages

# Product Service

China Vast Logistics fully utilizes social logistics resources and organically integrates warehousing, transportation, loading and unloading, processing, management, distribution, information, and other aspects to form a complete logistics supply chain, providing multi-functional, integrated and comprehensive logistics warehousing services for customers in need.

According to different needs of customers, the company provides storage, custody, tally, handling, loading and unloading, sorting, packaging and other diversified storage services; according to actual logistics needs of customers and operation mode of the company, we customize reasonable modern logistics solutions for clients, solving problems of warehousing, distribution and other logistics services for customers under the premise of meeting the requirements of the market and reducing logistics costs.

# Product Service

Using the advantage of intensive well-known port liners of Qingdao, Shanghai, Dalian, Tianjin, Ningbo, Guangzhou, Lianyungang, etc, and equipped with landlocked trailer and barge shuttle services, China Vast Logistics is able to provide customers with flexible and varied choices, including different port of shipment, different carriers like EMC, MARESK, APL, HPL, OOCL, MSC, COSCO, NYK, KLINE, etc. and different cut off period( from Monday to Sunday), no matter how urgent the shipment requirement is,

# Future Plans

“

Not limited to the status quo, and in subversive thinking, China Vast Logistics sketches layout for the future development of the enterprise in advance in a reasonable and effective manner.

And we adhere to the spirit of daring to explore and try eternally for its sustainable development.

The future will only belong to people profound in vision, rich in courage, diligent in thinking and brave in practice.

# Future Plans

## 1 Aiming at the new development direction of customer groups

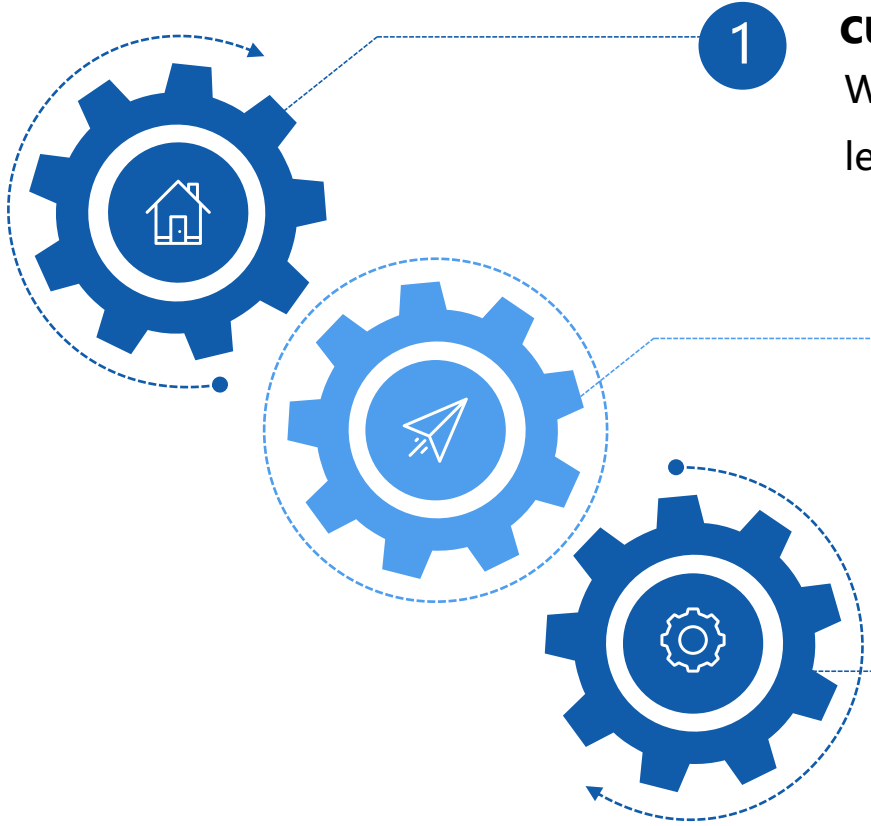

Working hard, sensitive to development trend of upstream customers, active learning, sketching the layout as soon as possible.

## 2 Creating potentials guiding the customer groups

According to law of development of economy and society, analyzing and deducing the possible but not yet appeared trends, sharing and growing together with customer groups.

## 3 Exploring transformation of the logistics service industry

Breaking away from inherent thinking, daring to be the pioneer in the industry in terms of the organizational structure and operation models, fully testing and daring to try.

# Future Plans

# Thanks for watching

A bright future based on the present.  
Win-win cooperation using complementary advantages.

THE END
