01 Company Description

DongGuan AOLANGE Electronics CO.,LTD

OVLENG Brand Story

OVLENG’ s story begins nearly two decades ago in Shenzhen, where our founder—a passionate entrepreneur—began crafting headphones with a clear mission: to bring premium audio to everyone, everywhere. Starting as early as 19 years ago, he committed to quality and originality, eventually building a portfolio of over 100 private molds and turning OVLENG into a trusted name in the audio world.

- As the company grew, so did its impact. Over the past 15+ years of factory operations, OVLENG has not only delivered cutting-edge Bluetooth earphones and smart audio glasses but has also provided stable jobs and growth opportunities to dozens of families in the region—making social responsibility part of our DNA.

business formation

300
Team size

- Today, OVLENG serves customers in over 50 countries, collaborating with leading retailers and tech partners across North America, Europe, the Middle East, and Southeast Asia. We specialize in independent design, R&D, and manufacturing, and have become a go-to OEM/ODM partner for global brands seeking reliability, innovation, and style.

- From a local workshop to a global audio brand, OVLENG continues to stand at the forefront of Bluetooth innovation—where passion meets precision, and sound meets soul.

Our advantages

03

OVLENG Key Advantages

01 Advantage

Over 20 Years of Industry Expertise

With two decades of experience in the audio field, OVLENG has evolved from traditional headphones to cutting-edge Bluetooth and smart wearable technology.

02 Advantage

Strong In-House Mold Capabilities

We own 100+ private molds, offering original designs with strong product differentiation to help our partners stand out in the market.

03 Advantage

Independent R&D and Design

Our in-house team includes industrial designers, structural engineers, and acoustic specialists, enabling end-to-end solutions from concept to mass production.

We provide OEM/ODM services and support fast product customization based on market trends.

04 Advantage

Reliable Manufacturing & Quality Control

With our own factory and complete production lines, we ensure stable quality, flexible lead times, and international compliance (e.g. CE, FCC, RoHS).

03

OVLENG Key Advantages

05 Advantage

Diverse Product Portfolio

We focus on Bluetooth earphones (TWS, over-ear, neckband) and smart audio glasses, supporting advanced features like ANC, Bluetooth 5.4, and multipoint connection.

06 Advantage

Global Market Reach

OVLENG products are sold in 50+ countries worldwide, with long-term partners across North America, Europe, the Middle East, and Southeast Asia.

07 Advantage

Professional Service & Flexibility

We offer multilingual support, fast sampling, and responsive after-sales service.

Flexible cooperation models include small trial orders, rapid prototyping, and private label solutions.
