

We Just Make Speakers

ABOUT US

Shenzhen Welldy Technology Co.,Ltd is a Shenzhen-based company specializing in the design, development, production and sales of speaker products. The company has a professional, efficient and innovative management team in product development, manufacturing, quality, marketing and after-sales. With rich experience and solid strength, it is a company that is widely trusted by its peers and customers. It mainly produces portable Bluetooth speakers, waterproof bluetooth speakers, desktop speakers, smart speakers and other speaker products.

Welldy is committed to providing quality audio products to people all over the world. We are eager to use our team's wisdom to produce a personal speaker for people all over the world, bringing us a beautiful life.

Welldy people have a unique self-awareness:

The design adheres to the design concept that will not be ruthless;

Production adheres to the demanding and perfect production quality concept;

Service adhering to the concept of sincerity, integrity and efficiency;

The company has more than 2,000 sqm modern workshops, strictly follows the latest quality management standards of ISO9001:2018, and through BSCI accreditation, Welldy people use their unique cognitive concepts and rigorous attitude to control every step from design, development to mass production. Let more and more people have the same confidence in our products as Welldy.
