面向全球的人工智能语音翻译解决方案提供商

AI + Voice Translator/ Speech Translation Total Solutions Provider

关于我们 About Us

SHENZHEN WOOASK TECHNOLOGY CO., LTD is a national high-tech enterprise that was established in 2015 by a group of experts in AI speech translation technology, management, and sales with an international perspective. After years of development, WOOASK TECHNOLOGY has become a leading provider of AI voice translation solutions on a global scale.

Since inception, we have focused on the research and development, production, and sales of intelligent voice translation software, hardware products, and translation platforms. With years of extensive research and development, WOOASK TECHNOLOGY has accumulated world-leading technologies such as NMT technology, noise reduction algorithm technology, offline voice translation technology, intelligent voice interaction technology, Bluetooth and BLE technology, global server cloud automatic matching and load balancing technology, and powerful hardware research and development and manufacturing capabilities. This has enabled the development of the world's leading translation platform (Wooask APP), Wooask AI translation open platform, as well as handheld translator device, translator earbuds, AI voice recorder, video conference translation systems, and other intelligent voice translation hardware products.

Currently, WOOASK TECHNOLOGY has established a product matrix that includes terminal, solution, and platform offerings. With dozens of national patents and software copyrights, we have implemented a complete and scientific quality and R&D management system that enables precise control over the product development process, from design and research to production. WOOASK TECHNOLOGY can offer customers AI solutions centered around intelligent voice translation, including machine OEM/ODM, hardware and software customization, cloud services, and product integration.

深圳市贸人科技有限公司成立于2015年，是一家由人工智能语音翻译技术专家和具有国际视野的管理和销售人才组建的国家高新技术企业。经过多年的发展，目前已成为全球领先的人工智能语音翻译解决方案提供商。
