DONGGUAN KINGHAL ELECTRONIC TECHNOLOGY CO., LTD

Product Catalogue

Introduction

Established in March 2009, Dongguan Kinghal Electronic Technology Co., Ltd. has played an important role in the audio and video market. We have a strong R&D department and a wide market share. To become more global and invest more in product, in June 2024, we invested in a brand new R&D headquarter with a 2,000 square metres production workshop and 200 employees, of which more than 80 are engineers and salespeople. The investment enables us to provide quality products and services to customers from all over the world. We spend more money on development and marketing, purchasing advanced production equipment and testing instruments to implement strict quality control throughout the entire product process, Make our products a bridge between you and your users. So no matter where you come from, online or offline sales, we encourage and support you to distribute our products, share our technology and profits, and build strong long-term relationships. Then you can link your users and win their trust and respect.
