A photograph of a modern, multi-story office building with large windows and a dark facade, partially obscured by green trees. The image is overlaid with a pattern of blue and green circles of varying sizes, creating a halftone effect.

PART. 01

Company Profile

Company Profile

- Hebei Fumai Lai Import and Export Co., Ltd. is a high-tech enterprise specializing in chemical research and development, production and sales.
- Dedicated to providing customers with high quality chemicals and customized solutions.
- Products are widely used in medicine, agriculture, electronics, coatings, daily chemical, environmental protection, energy and other fields.
- Focus on environmental protection and sustainable development, promote the development of green chemicals.

A photograph of a modern, multi-story building with large windows and a dark roof, surrounded by green trees. The image is overlaid with a pattern of blue and green circles of varying sizes, creating a halftone effect.

PART. 02

Product Catalog

Product Catalog

Organic chemicals

Acids, esters, alcohols, ethers, etc

Inorganic chemical

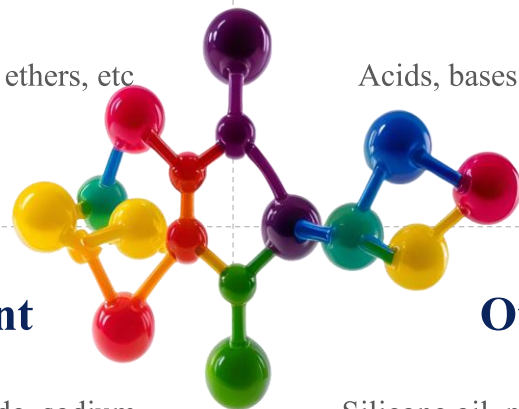

Acids, bases, salts, oxides, etc

Surfactant

Coconut diethanolamide, sodium lauryl sulfate, etc

Others

Silicone oil, polyvinyl alcohol, etc

Product Catalog

Organic chemicals

1

- Acetic acid
- Acrylic acid
- Formic acid
- Trifluoroacetic acid
- Benzene sulfonic acid
- Azelaic acid
- DL-mandelic acid
- Salicylic acid

Acids

2

- Methyl acetate
- Isopropyl acetate
- Methyl methacrylate

Esters

3

- Butyl alcohol
- Sodium tert-butoxide
- Isopropyl alcohol
- Propylene glycol butyl ether
- Methyl Tertiary Butyl Ether

Alcohols

3

- Sodium lauryl sulfate
- Dichloroethane
- Dimethyl sulfoxide

Alcohols

Product Catalog

Inorganic chemical

1

- Hydrochloric acid

Acids

2

- Sodium hydroxide
- Potassium hydroxide
- Lithium hydroxide

Alkaline

3

- NaCl
- Lithium chloride
- Lithium carbonate
- Zirconium carbonate
- Zirconium Oxychloride
- Sodium hypochlorite

Salts

3

- Antimony oxide trioxide
- Neodymium oxide
- Erbium oxide
- Yttrium oxide

Oxide

Product Catalog

Surfactant & Others

- Coconut diethanolamide
- Sodium alpha sulfonate
- Sodium lauryl sulfate
- Cocamidopropyl betaine
- Lauryl glucoside

Surfactant

- Silicone oil
- Polyvinyl alcohol

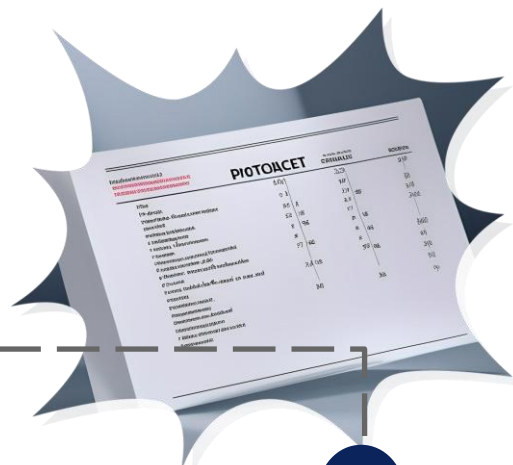

Others

A photograph of a modern, multi-story building with large windows and a dark roof, partially obscured by green trees. The image is overlaid with a pattern of blue and green circles of varying sizes, creating a halftone effect.

PART. 03

Basic features of product

Basic features of product

01

High purity

- Organic chemical purity $\geq 99\%$, inorganic chemical purity $\geq 98\%$.
- Electronic grade solvent meets SEMI standard and is suitable for semiconductor manufacturing.

Stability

- Strict QC control to ensure consistent quality between batches.
- High temperature and corrosion resistance, suitable for a variety of industrial environments.

02

03

Environment

- Comply with REACH, RoHS and other international environmental standards.
- Green chemicals, low toxicity, low pollution.

Customization

- Support to adjust specifications (such as concentration, packaging, etc.) according to customer needs.
- Provide technical support and formulation optimization services

04

A photograph of a modern, multi-story office building with large windows and a dark roof. The building is partially obscured by several green trees in the foreground. The background is a light blue sky with a pattern of white and blue dots.

PART. 04

Product advantages

Product advantages

Support to adjust specifications
(such as concentration,
packaging, etc.) according to
customer needs.

**Provide technical support and
formulation optimization
services**

**Reasonable price
High cost performance**

**Complete specifications
Support customization**

**Timely delivery
Good service**

The background of the slide features a photograph of a modern, multi-story building with large windows and a dark roofline. In the foreground, there are several lush green trees. The entire scene is overlaid with a pattern of semi-transparent blue circles of varying sizes, creating a halftone effect. The text 'PART. 05 Applications' is centered over the image in a white, sans-serif font.

PART. 05
Applications

Applications

Research in the field of environmental protection

Water treatment chemicals, waste gas treatment agents
Efficient degradation of pollutants, help environmental protection.

Coatings and inks

Resins, solvents, additives
Improve product performance and enhance adhesion.

Agriculture

Pesticides and fertilizers
High efficiency, low residue, help green agriculture

Daily chemical industry

Surfactants, fragrances, preservatives
Safe and environmentally friendly, suitable for personal care products.

Electronics Industry

High purity chemicals, electronic grade solvents
Suitable for semiconductor and display panel manufacturing.

Energy Industry

Battery materials, catalysts
Improve energy efficiency and support the development of new energy technologies.

A photograph of a modern, multi-story building with large windows and a dark roof, partially obscured by green trees. The image is overlaid with a pattern of blue and green circles of varying sizes, creating a halftone effect.
