**EAP-AIR FRYER-2022**

# AIR FRYER

---

EAP - Make Life Easier!

# AIR FRYER

---

The air fryer is compact, requires no preheating, uses little oil, and is simple to operate. It uses heat energy to spin food in a closed system at high speed to puff. It is essentially an oven, with a fan blowing heat into the food, which circulates hot air to separate the oil from the food and make it taste like frying.

## Air Fryer Recipe Recommended

**AIR FRYER**  
Less oil is healthier

## EAP-AFB309B

CB CE FDA GS RMS SAA

Voltage: 220-240V

Frequency: 50/60Hz

Power:1500W

Basket Capacity:3.0L

Temperature:80-200℃

Timer:0-30min

- SUS Heating element

- Overheating protection

- Safety cut off

- Indicate lights(Power and cooking)

- Ready bell ring

- Anti-slip foot

- |                       |  |
|-----------------------|--|
| Voltage: 220-240V     | - 304 stainless steel heating element      |
| Frequency: 50/60Hz    | - Automatic shut-off with ready alert      |
| Power:1400W           | - Insulation handle for frying tank        |
| Basket Capacity:3.0L  | - Prevent slip feet                        |
| Temperature:80-200 °C | - Heat resistant material inside enclosure |
| Timer:0-30min         | - With fan guard,more safety               |

# EAP-AFA401

Voltage: 220-240V	4L Capacity
Frequency: 50/60Hz	Easy-used
Power:1400W	Knob operation for timing adjustment
Basket Capacity:4.0L	Fried without oil
Temperature:80-200℃	Automatically switch off
Timer:0-60min	Non-stick

# EAP-AFB405A

Voltage: 220V

Frequency: 50/60Hz

Power:1300W

One Basket Capacity:4.5L

Temperature:80-200 °C

Timer:0-30min

Color box: 327x327x347mm

Product Size:250x354x310mm

N.W/G.W:3.4/4.2KG

Packing: 1PCS/CTN

## EAP-AFA506

Basket Capacity:5L

Power:1100W

Color box: 370\*330\*305mm

Product Size:335\*300\*270mm

Color: Black and Green
