GBM Advantage

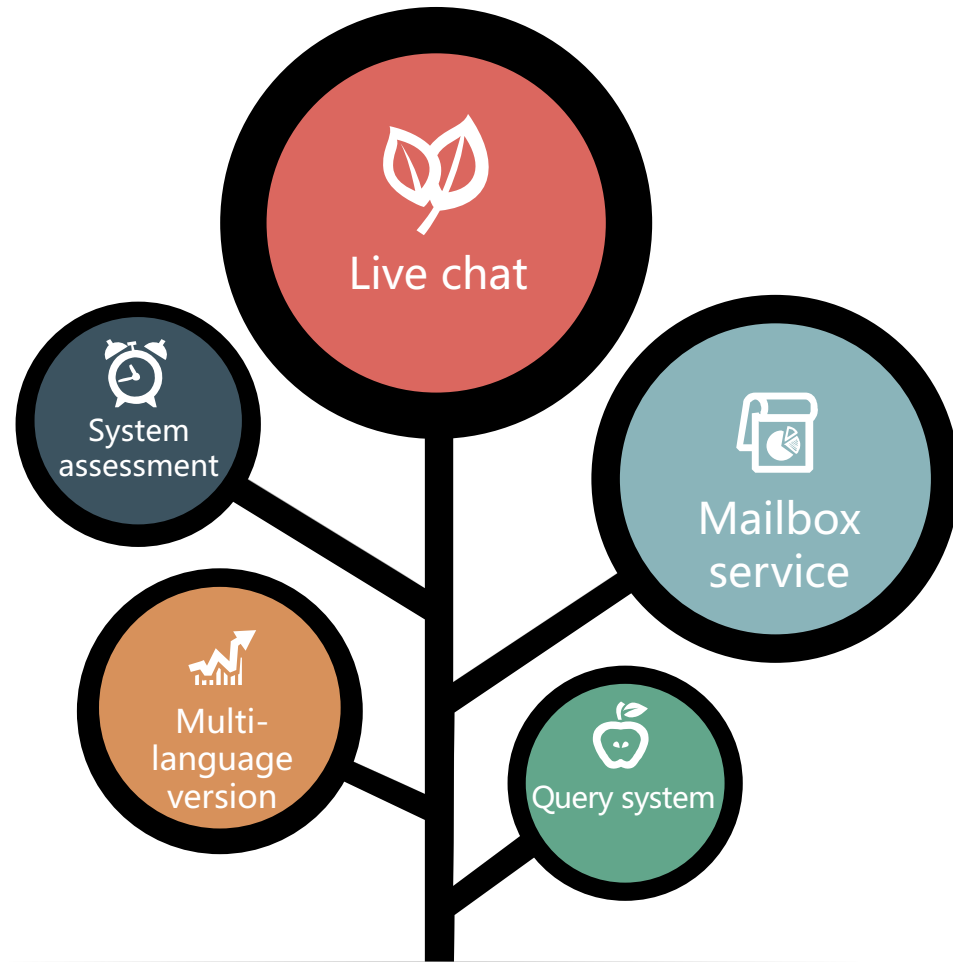

- 1) We have more than 1,700 suppliers for different products around the world. Purchasing segmentation and specialization reduce the production cost of products, guarantee delivery time, reduce losses, and thus earn more profits for customers.
- 2) The professional team can resolve any order from the customer, from OEM-ODM-OBM to the entire business scope, thus solving any needs of different customers.
- 3) With more than 20 years of export experience, we provide one-stop services with major shipping companies, air logistics, express delivery and other related export businesses to solve various problems in the export process for customers.
- 4) With a professional design team, graphic design, 3D design, packaging design, product design, engineering design, etc., we can solve various problems that customers encounter.
- 5) With a strong sales team, our sales members are all over the world to achieve a variety of business services and meet the needs of global customers.
- 6) GBM has 70% of its business with 100 years of corporate customers from Europe and Japan. And these customers have cooperated with GBM for more than fifteen years. Our service is supreme and can give customers more trust.
