INTRODUCTION

Dongguan Lewe electronics Co.,Ltd, established in 2002,is a leading high-tech enterprise specialized in R&D, design,manufacture, solution,sales and service of Li-ion battery packs(eg:laptop batteries,power tools batteries, Vacuum cleaner and sweeper batteries,electric bicycle batteries, outdoor energy storage power supplies and customized batteries)and AC adapters(Such as GaN charger, laptop adapters, game console power supply, electric bicycle charger, camera charger, etc). As one of the best suppliers of Li-ion battery packs and chargers' solution and products, we are dedicated to provide the safe, portable and durable energy products.

Covering an area of 20000m2, our company has more than 500 staffs and more than 100 technical team members. With the professional R&D laboratory and the advanced manufacturer equipment, we are able to satisfy all the OEM and ODM demands.

R&D: Our company has a comprehensive R&D center. The core technicians have an average of more than 20 years of experience in the industry. They are fully sensitive to the cutting-edge technologies of the industry and ensure the leading position of technological achievements. At present, our company independently designs and develops nearly 1,000 laptop batteries, 60 power tool batteries, 10 energy storage power supplies, and more than 100 AC adapters, and we continue to develop new products every month.

Capacity: Our company can achieve the production capacity of 9,600,000pcs/year for battery packs and 6,500,000pcs/year for chargers.

Quality management system:the company has established a scientific&sound management system, and also passed the ISO9001 certification. All products can meet safety protection standards,refined quality control management required by quality inspection procedures, and intelligent BMS protection boards.

Relying on continuous independent innovation ability, battery packs and chargers' design ability and excellent cost control ability, LW successfully sold to Europe, North America, South America, Middle East, Southeast Asia,Russia and other parts of the world with reasonable price, fast delivery time and thoughtful after-sales service, making the market share grow rapidly year by year.

We will always keep firmly in mind the quality is the foundation for the survival of an enter-prise; the innovation is the original power for the development of an enterprise; the service (customer service, society service) is the headspring for the survival of the enterprise, Lewe is looking forward to the participation of all of you, here will be the paradise for the wise.

QUALITY CONTROL

01 SCORE STANDARD

18650 li-ion and li-polymer battery cells testing

02 PCB BOARD DATA TEST

Charge-discharge & compatibility test

03 SPOT WELDING MACHINE

High precision ,high production and safety auto cell's spot welding machine

04 AGEING TEST CABINET

Smart product's cell test system can promise the capacity

05 REAL MACHINE TEST

All of our branded laptop , each batch of finished battery and adapter will do real machine matching test

WORLDWIDE EXHIBITION

In order to expand our market,
Since the establishment of the company,
We are participating in exhibitions throughout the year.

GaN CHARGER

Industry Elite of New genaration Charger

LEWE owns a big factory which has been engaged in the charger industry for 20+ years. Every of our charger will have a comprehensive test before the shipment. Our R&D department is keeping our products staying better quality with state-of-the-art technology and material

PORTABLE POWER STATION

After continuous research and exploration, we have created a series of practical consumer electronics products such as power stations, energy storage systems, which have brought conveniencen over 100 countries worldwide.

THE BEST CHOICE FOR YOU

• RELIABLE QUALITY

Lewe always insists to give the top priority to the quality guarantee.A new model or product must get final approval by strict tests, like original machine test,vibration test. Perfect and scientific quality controlling system all through the production definitely ensure the quality. Welcome to visit our factory, we will show you the details.

• COMPETITIVE PRICE

Lewe is one of the earliest and biggest manufacturers in the line of Li-ion battery packs. our production cost is much lower than the average level. We are convinced that at the same quality, our price can be the best among all.

• TEAM SERVICE

Lewe has a special customer consultant for each customer-besides the salesman! You will enjoy the service from a team not only one person! Any of your requirements will be paid enough attention and fulfilled in time!
