E-WONDERLAND

PRODUCT CATALOG

Original manufacturer & Focus on Multi-functional Speaker with Lighting, Wireless Charger or Clock etc.

2026

Company Profile

Shenzhen E-wonderland Technology Co.,Ltd was founded in 2011 and focuses on businesses realated to household innovative consumer electronic products, The company integrates in design, R&D, production, sales and services, providing one-stop OEM&ODM customization services for global customers.

Currently,the company has sold its products to 50+ countries and regions including America, Europe, Australia, Asia and Africa, the products are highly praised by customers for their excellent quality, exquisite craftsmanship and the extreme cost-effectiveness.

Now the company is still making efforts and breakthroughs to help the global partners to win the business benefits and win the market competitions.

E-WONDERLAND

Our strengths:

Expertise: Over 100 exclusive design patents and certifications (BSCI,ISO9001).

Global Partnerships: Bytech,Supersonic,Promate,Intra,Polaroid,HAMA,etc.

Distribution Channels: Walmart, Target, ALDI, LIDL, KMART, AMAZON,etc.

Advanced Capability: A 8000+ sqm factory with elite R&D engineers, skillfull workers and advanced equipments for cutting-edge products development,high-standard production and timely delivery.

Product Portfolio: Multi-functional bluetooth speakers, Lamps, wireless chargers,white noise machine and soundbars.

Original manufacturer & Focus on Multi-functional Speaker with Lighting, Wireless Charger or Clock etc.

Vision: Better Design, Better Life

Milestone

2011 Established on May 27, 2011, embarking on the journey of innovative smart audio and 3C digital products.

2016 Pioneered a portfolio of music-centric wearable devices, marking our entry into smart audio wearables.

2018 Successfully launched a series of innovative desk lamp and speaker products, including flagship L3 and L4 models, establishing a core position in home-office audio & lighting products.

2019 Advanced R&D priorities to include the L8 and L9 eye-protection lamps, reinforcing our leadership in healthy lighting technology.

2023 Leading innovation in sound+light wellness devices: launched premium speakers with night lights and calming audio, entering the new track of healthy consumer electronics.

2025 Embraced the ethos of Innovate Elevate Conquer, driving forward next-generation smart consumer electronics.

2026 Focus on the sound+light health ecosystem, build a world-leading smart audio and healthy lighting brand, opening a new chapter of global development.

Advanced Production Line

Multiple automated production lines operate in parallel, achieving efficient collaboration.

Scientific management: Process optimization + strict quality control, ensuring high-quality delivery.

Flexible manufacturing: JIT lean model, flexibly adjusting workstation and production line layouts, supporting rapid switching of production for multiple models and product categories.

Office Location Introduction

Our modern office space features sleek design, neat layout and tidy surroundings.Boasting bright interiors and comfortable working environment, it creates a sophisticated, elegant and efficient workplace.

Office

Exhibition Hall/Meeting Room

QC Office

Core Equipment - Reliability Testing

Equipped with advanced core production and testing equipment, we implement standardized production procedures and rigorous quality inspection processes. Every product undergoes comprehensive performance tests and strict reliability verification. We adhere to precise manufacturing standards to fully stabilize product quality, ensure outstanding durability and stable performance, and deliver highly reliable products to clients worldwide.

Constant Temperature and Humidity Chamber

Electroacoustic testing system

Simulated transport vibration tester

RCA paper tape abrasion resistance

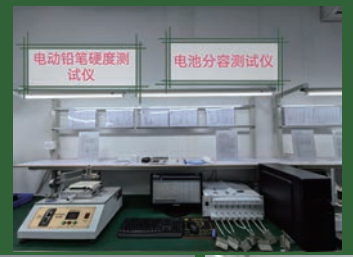

Air tightness leak detector

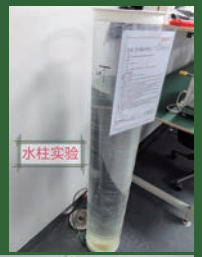

Coverage Tester

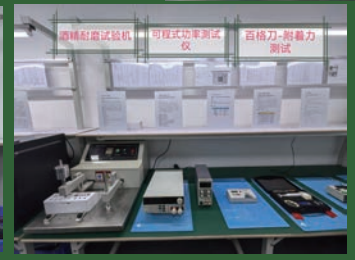

Performance and Environment Testing

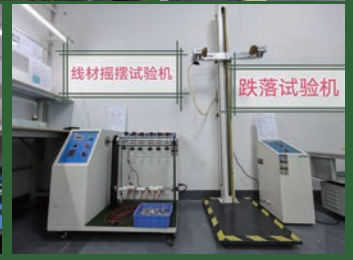

Advanced testing equipment and rigorous testing procedures jointly form a solid defense line for product quality.

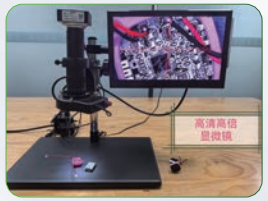

Laboratory Testing Instruments

Our laboratory is fully furnished with high-precision professional instruments and sophisticated testing equipment.
