Main products:

- Our main products are the following types of mobile phone cases:
- **1** The material of TPU/Silicone case is soft, the style is more classic, and it can also be done in different processes, such as printing, gradient planting and IMD.
- **2** Defender case is anti-fall, The material is hard, generally with function, such as ring holder, card slot and magnetic .
- **3** Luxury case belong to fashion design, suitable for miss/lady, we usually add some elements to the phone case, such a long /short strap, diamonds, and pattern designs
- **4** Acrylic case is a hybrid case, it can be made on different styles of case as a part of them.
- **5** Environmentally friendly case / ECO friendly case , the raw material is wheat straw, 100% degradable, environmentally friendly, in line with the new trend of people's environmental protection consumption, even for it's packaging we use PE recyclable bags.

Best selling: TPU+PC 2 in 1 cases

Best selling: TPU/PC hybrid cases
