Company Profile

The factory is located in Enping City, which is known as the industrial base of China's performing arts equipment. It is mainly engaged in audio and video peripheral equipment products such as microphones, mixers, sound cards, fill lights, loudspeakers, microphone brackets, etc. Customized processing such as sample processing, drawing processing and OEM processing is supported. We have more than ten years of experience in production and R&D, have our own patented products, hold appearance patents and practical patents in many countries, and our products also have CE, FCC, PSE, UKCA and other foreign certifications. Our products sell well at home and abroad. We are a technology-based enterprise integrating R&D, design, production, processing and sales.

At present, the company has 1700 m² production workshop, more than 100 employees, multiple SMT mounting equipment, laser screen printing equipment, packaging machine and other processing equipment and multiple complete assembly lines. Each link of our products is checked by special quality inspectors, who strictly implement the systematic management of ISO9001 standard process. It is exclusively used for cross-border e-commerce such as Amazon and AliExpress.

We adhere to continuous innovation around customer needs, increase research investment, and promote the progress of audio products. Welcome friends from all walks of life to visit, guide and negotiate business.
