Established in 2000 with 100 Sets of Production Equipment

Our factory was established in 2000 and is located in Wuhan. The hygiene and safety of food packaging is a huge project. Safe products need a very perfect production environment and production conditions. The closed workshop and the strict control of the whole production process from raw materials to finished products are a strong guarantee for the health and safety of products. In addition to strict hygiene and safety of food packaging, the hospitable guy also focuses on innovative research and development of technology and products. At present, the workshop has more than 100 sets of advanced production equipment, with a daily output of 4 million products.

Own Design Team with 20 Years' Experience

In terms of printing, all our products are printed with environmentally-friendly, non-toxic and tasteless ink. We have our own design team with 20 years of professional experience. We can tailor packaging solutions according to the characteristics and uses of customers' products, or upgrade the system with the original packaging equipment. A number of disposable paper containers and paper products independently designed by us have been adopted by many well-known companies.

Contact Us Now

After 20 years of development, our partners are involved in various fields at home and abroad, such as catering, cold drinks, baking, aviation, railway, office, cinema, food factory, Internet foreign trade and so on. Contact us now to learn more.
