

Shenzhen HANHONG Digital Technology Co., Ltd.

HANHONG: Your Premium Audio Partner

01

Established in 2014

Founded in 2014, Shenzhen Hanhong Digital Technology has emerged as a leading professional manufacturer specializing in **Sound Bars, Party Speakers, and Premium Boombox**. Our journey begins with a vision to create unique audio products that resonate with global consumers.

Industry Certifications

Hanhong is proud of being a licensee of **HDMI and DOLBY ATMOS**, ensuring the latest advanced technology of our products. Additionally, we have been certified with **BSCI, SCS, ISO9001, and ISO14001**, which delivers our commitment for quality and compliance.

02

03

Strong R&D Team

Hanhong's rich experienced R&D team comprises **electronic, mechanical, acoustic, and software engineers**. Our multi-skilled product team enables us to provide satisfactory customized OEM/ODM solutions for our customers to realize their expected demands.

HANHONG: Your Premium Audio Partner

Long-term Partnerships

Hanhong has forged long-term partnerships with renowned brands such as **PHILIPS, JVC, AIWA, MOTOROLA, BLAUPUNKT, SANSUI, and AKAI**. These collaborations have built mutual trust and a shared commitment with all our partners.

04

100% Private Design

We pride ourselves on offering **100% private design solutions** to the global market. Our products are recognized for their excellent sound quality, attractive design, reliable performance, and best service, obviously distinguishing from the audio competitors in the market.

05

Global Reach

Our products are designed to cater for global consumers, with **delivering outstanding sound quality and innovative features**. Hanhong audio has performed an impressive presence in the global market, being the good choice for audio enthusiasts worldwide.

```

SMT 100% in-house. Key components are all purchased from famous brands.

Production Facilities

Final assembling lines

潮宏音响
HANHONG AUDIO

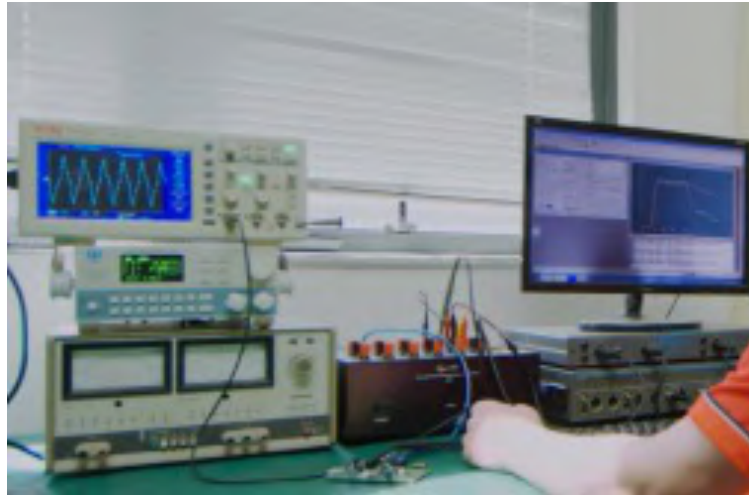

There are around 450 direct workers in the factory. The monthly production capacity is 120k sets.

Acoustic Testing Facilities

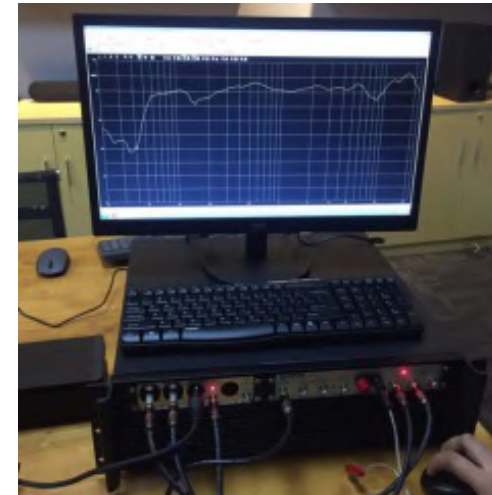

In order to assure the exact same acoustic for the mass production as the approved golden sample by our customers, our factory will fulfill the following acoustic testing in house during the MP.

Professional anechoic test room

E-performance test

Acoustic AP test

Online CLIO test

Reliability Testing Facilities

Our factory conducts all the necessary reliability tests during PP. After all the issues are closed, then the product could be released to MP. During MP, our IPQC and OQC will conduct 100% online checking and QA will perform the random check too.
