ABOUT US

KOLITT

Shenzhen Kolitt Industrial Co., Ltd. was established in 2016 with 4 production lines, 55 employees, and a professional R&D engineering team. It is a professional camera company in Shenzhen, Guangdong Province.

We mainly serves global customers, providing customized computer cameras and camera solutions in one of the professional industry and trade companies. The company takes "focusing on cameras and serving with heart" as its core value. We hope that through our professional level and unremitting efforts, we will be able to achieve mutual benefit and win-win results with customers from all over the world!

Over the past six years, Kolitt has always insisted on focusing on user's needs. While developing new products, our classic cameras have won the trust and praise of many new and old customers with preferential prices and high standards of quality, and have established a good reputation for our company's brand.

Kolitt not only provides professional camera solutions and camera products, but also provides a complete after-sales service system to help customers with problems and difficulties encountered in the use of products.
