About US

Established at 2008, Dongguan Huachuang Electronic is an integrated enterprise with the ability to research and development, design, produce, process and sell.

We specialized in design, research and development, manufacture and sale of High Quality Anti-Lost Tracker, Car Play, Type-C HUB and iPad Pencil. From the first day of establishment, we have given priority to product quality and safety. As ISO 9001 & BSCI certificated factory, our products are compliant with many international standards like CE, RoHS, FCC and REACH. What's more, we always pay great attention to innovation. Up to now, we have obtained many patents of different kinds at home and abroad.

Thanks to strong ability of development, sufficient production

capacity and strict quality policy, our products have gained global reputation for the excellent design and perfect performance. Most of our clients are got more orders and repeat orders very soon.
