ABOUT R.E.T.

公司介绍

Rooted in Dongguan, Guangdong, the "World Manufacturing Capital", we operate a 12,000-square-meter intelligent manufacturing base with a 300-member professional team, specializing in integrated R&D, production, and sales of phone/tablet stand solutions. Our 15-engineer R&D team has secured 6 invention patents, 50+ utility model patents, and 100+ design patents, forming a robust intellectual property portfolio.

End-to-End Manufacturing Capabilities

Mold Development: In-house mold processing center and 3D printing enable 24-hour rapid prototyping.

Injection Molding: Equipped with 80-250-tonnage injection molding machines, achieving a daily output of 50,000+ units.

Surface Treatment: Screen/pad printing workshops support complex effects like UV color painting and IMD (In-Mold Decoration) technology.

Quality Assurance System

AI-Driven QC: AI-powered visual inspection system ensures full-process data traceability during assembly and testing.

Our CNAS-accredited laboratory features:

2.5D optical measurement system with $\pm 1\mu\text{m}$ accuracy

Programmable temperature/humidity test chamber ($-40^{\circ}\text{C}\sim 120^{\circ}\text{C}$ / 20%~98% RH)

50KN high-precision tensile testing machine

QUV UV accelerated aging tester (compliant with ASTM G154)

Through digitalized production management systems, we achieve end-to-end digital control from raw material intake to finished product delivery. As a strategic OEM/ODM partner for global top 10 mobile accessory brands like Anker and Baseus, we deliver over 15 million smart stands annually.
