

Skycut: Your Trusted Partner for Cutting Machines and More

Skycut is a renowned manufacturer and vendor with over 7 years of expertise in cutting plotters, craft cutting machines, and screen protective film cutters. We specialize in providing OEM and ODM services for branded companies, wholesalers, and retailers. With a track record of successfully completing over 100 ODM projects, we have established strong partnerships with leading customers in the US and Europe, enabling us to have deep insights into the global markets.

Cutting Machine Experts: Delivering Lifestyle Solutions

1. Our state-of-the-art factory spans an impressive 15,000 square meters, equipped with advanced production facilities that allow us to deliver cutting machines with a monthly capacity exceeding 50,000 units.
2. Our team comprises 30 experienced engineers specializing in various fields, including APP development, industrial design, software programming, firmware optimization, hardware engineering, mechanical structure design, and more. With over 100 patents for our smart cutting machines, we constantly push the boundaries of innovation.
3. Our commitment to quality and ethical practices is demonstrated through our BSCI-audited factory, as well as our adherence to ISO 9001 and ISO 14001 management systems. Additionally, our in-house test laboratory ensures that every product meets stringent quality standards.

Cutting-Edge Testing Equipment

At SKYCUT, we utilize cutting-edge test equipment to assess various performance parameters of individual parts and cutting machines. With our advanced tools, we ensure that our products meet the highest level of quality and performance specifically tailored for cutting machine applications.

Our Testing Capabilities

- Salt Spray Chamber
- 2-Dimensional Measuring Projector
- Transportation Vibration Testing Machine
- Constant Temperature and Humidity Box
- Fully Automatic Bursting Strength Tester
- Double Arm Drop Testing Machine
- HDMI Electron Microscope

Over 250 Employees

There are more than 250 employees in our company. We strictly adhere to international standards, industry standards, and our own enterprise standards to guarantee exceptional quality and performance in every cutting machine we produce.

Trust Us and Be Our Partner

To stay at the forefront of technological advancements in the cutting machine industry, we actively engage in technical exchanges with industry-leading manufacturers. This allows us to

stay updated on the latest innovations and incorporate cutting-edge technologies into our products. With our commitment to quality assurance and continuous improvement, you can trust SKYCUT to deliver cutting machines that exceed your expectations.
