Design for Pet

Filter impurities or hairs

Split design makes larger capacity

Intelligent water supply,
automatic constant
temperature

NEW

Smart Shell Pet Smell Deodorizer

Design for Pet

Auto On/Off & 100% Safe – When the cat approaches, the Smart Shell will turn off through the built-in infrared sensor, but once no other movement is detected, the Smart Shell will reactivate. This will make sure that your cat will not be disturbed in any way.

The Smart Shell eliminates the smell by using ozone and a negative ion generator. Ozone can oxidize and decompose those pesky odors. And negative ion can also reduce litter dust.

Long-Term Use & USB Powered - One charge provides up to 10-day of battery life. No need to buy any other consumables.

chapter 2
