

深圳意格科技有限公司

SHENZHEN YIGE TECHNOLOGY CO., LTD.

We always adhere to the good creativity and stylish design concept, so that everyone can enjoy a high-quality life of the integration of technology and art.

COMPANY PROFILE

Shenzhen Yige Technology Co., Ltd. is a technology lifestyle brand that integrates industrial design, new product research and development, technical research and independent production. We specialize in small household appliances, particularly smart soap dispensers, aromatherapy machines, humidifiers and night lights. Our brand team consists of the professional elites from various fields and the top designers from home and abroad. Yige Technology has focused on the small home appliance category for more than 10 years. Since 2019 when the brand was launched on the mainstream e-commerce platforms and offline stores as well as in more than 200 countries and regions around the world, it has been widely popular especially in European, American, Japanese and Korean markets and repeatedly creates hot products. Continuing to forge ahead, we will keep trying to bring more high-quality products, explore more possibilities in new life scenarios, intergrate technology and art and bring you more beautiful lifestyle products. Let technology benefit everyone. Let art celebrate life.

CHOOSE US FOR THE PROFESSIONAL SERVICE

Continuously increase the investment in technological innovation

In the changing market, Yige Technology always keeps high investment in technology and continuously updates the products to meet the needs of consumers. At the same time, we empower all the merchants and B2B customers.

Integrated production and research, mature supply system

The products R&D and the production are both under the control of our company own, which will not be affected by external factors such as intellectual property rights. The mature and stable production system enables fast delivery to customers. ODM/OEM lightweight customization is available.

Professional production line, effectively empowering

We have more than 10000m² workshops and 10 automatic production lines. The intelligent automation and high efficiency of production lines assure the delivery time.
