ABOUT US

TLD Apparel is a trusted ODM/OEM supply chain partner based in Vietnam. We specialize in transforming ideas into market-ready products and managing the entire process - from research and development, sourcing, and production to door-to-door global delivery. Supported by an extensive manufacturing network and a client-focused approach, we help brands, retailers, and sourcing partners optimize quality, cost, and lead time through a reliable and transparent supply chain.

With a production capacity of 500,000+ items per month, TLD Apparel is capable of handling both knit and woven garments, as well as sweaters and fashion accessories. We currently collaborate with 50+ global partners and brands, serving major international markets including the United States, the United Kingdom & European Union, and Australia, while consistently meeting diverse quality standards and compliance requirements across regions.

OUR MISSION, VISION, CORE VALUES

01 Mission

TLD Apparel is devoted to empower global fashion brands with comprehensive, ethical, and innovative manufacturing solutions, bridging the gap between design concepts and retail reality.

02 Vision

TLD Apparel aims to become the most trusted and sustainable fashion supply chain partner in Vietnam.

03 Core Values

Credibility

Credibility is prioritized. We ensure that our actions and commitments are trustworthy. We build and maintain strong relationships with our clients and partners through transparency and reliability.

Integrity

Integrity is the foundation of our work ethics. We adhere to the highest moral and ethical standards in all our business activities, fostering a culture of honesty and accountability.

Quality

Quality is non-negotiable. We are dedicated to delivering products and services of the highest quality, continuously improving our processes to meet and exceed our customers' expectations.

Creativity

Creativity is our driving force. We constantly innovate and seek new solutions to meet the evolving needs of our clients, striving for excellence in all aspects of our work.

Humanity

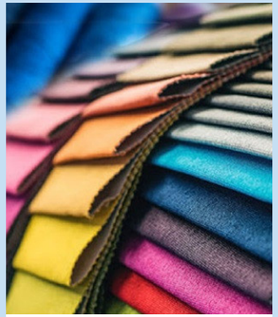

Humanity is at the heart of our approach. We value the well-being of our employees, customers, and the communities we serve. Our actions are guided by compassion and responsibility.

FULL-PACKAGE SERVICES

Delivery

- Global logistics coordination
- Multiple Incoterms: EXW, FOB, CIF, DDP
- Air & sea freight solutions
- Documentation, customs & on-time delivery

WHY WORK WITH US

Strong Development Capability
With an in-house designer, pattern maker, and fully equipped sample room, we transform your ideas into high-quality prototypes quickly and accurately.

Lean & Agile Process
Our streamlined workflow from quotation and product development to bulk production reduces lead time, helping you reach the market faster.

Highly Experienced Team
Our team of Merchandisers, Sourcing Specialists, QC staff, Technicians, and Sample Makers brings over 15 years of experience in the garment industry, ensuring consistent quality, transparent workflows, and smooth execution from development through production and delivery.

Flexible Scalability
With an extensive manufacturing network, we offer a full range of services including nominated FOB, own-sourced FOB (OEM/ODM), and CMPT. We support orders of all sizes and provide flexible shipping options from ex-works to door-to-door delivery.

OUR WORKFLOW

STEP 1
Review Your Techpacks/ Samples

We review your techpacks, measurement charts, and construction details for FOB quotation. If techpacks are unavailable, original samples can be provided for reference.

STEP 2
Price Quotation
(1-3 days)

Based on confirmed specifications, we provide a clear and transparent FOB quotation within 1–3 working days.

STEP 3
Sample Development
(7-14 days/Subject to material availability)

After price approval, we develop proto and fit samples to confirm construction, fit, and overall product quality.

STEP 4
PO Confirmation

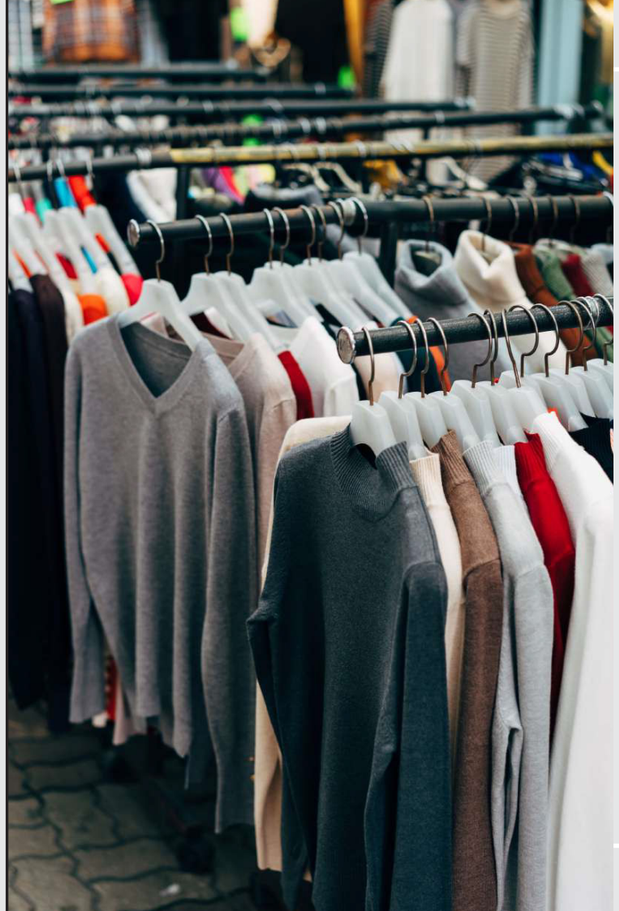

Once samples are approved, the purchase order is confirmed with final quantities and timelines.

STEP 5
Bulk Materials & PP Sample
(30-45 days)

Sourcing bulk materials and making PP samples to confirm final specs before production.

STEP 6
Bulk Production & QC
(30-60 days/Subject to quantity order)

Mass production with quality control to ensure consistency and on-time delivery.
