Fresnel optical screen

► PRODUCT OVERVIEW

THE APPEARANCE ADOPTS A 10MM EXTREMELY NARROW FLAT PANEL DESIGN, WITH OPTIONAL SOFT AND HARD SCREENS ON THE SCREEN SURFACE. THE FLEXIBLE AND ROLLABLE SOFT SCREEN IS EASY TO CLIMB UP THE STAIRS, WHILE THE HARD SCREEN IS MADE OF HONEYCOMB ALUMINUM PLATE, WHICH EXUDES AN ATMOSPHERE AND IS MORE DURABLE.

► INTRODUCTION TO THE SCREEN

ADOPTING THE PRINCIPLE OF FRESNEL LENS TECHNOLOGY, A CURVED 45 ° PROTECTIVE COVER IS FORMED TO RESIST AMBIENT LIGHT INTERFERENCE IN THREE DIRECTIONS: UPWARD, LEFT, AND RIGHT, WITH A LIGHT RESISTANCE OF $\geq 90\%$. IT SUPPORTS 8K+HDR SUPER VERSION CONFIGURATION, 2.5 GAIN, AND MORE BEAUTIFUL COLORS.

► SIZE RANGE IN PROPORTION

DIAGONAL 72 TO 120 INCHES.

Flat/curved frame screen

Enjoyment of three-dimensional vision within reach

Flat surfaces can also be bent into curved screens

2025 SCREEN GEMS.

SCREEN GEMS Screen Company is one of the world's largest manufacturers of high-quality film and television screens. Currently, it is sold in over 100 countries worldwide through authorized distributors in various regions. SCREEN GEMS focuses on projection screens as its core product. And it has numerous patented screen technologies. At present, SCREEN GEMS products are widely used in various fields, such as education, religion, hospitals, commerce, industry, and home theaters.

In 2010, the production base of SCREEN GEMS projection screens in China, Ningbo Mubao Film and Television Equipment Co., Ltd., was established in Ningbo. The products produced include frame projection screens, curved frame screens, electric screens, folding screens, simple screens, large-scale engineering electric and projector hangers, etc; Curtain materials include sound curtains, 3D sound curtains, metal curtains, high-definition soft curtains, high-definition fiberglass curtains, etc. Home products are mainly designed for high-definition projectors and high-end home theaters; Business education engineering products mainly face projection screens, exhibition halls, museums, science and technology museums, sports halls, weather stations, news centers, cinemas, TV studios, airports, military forces, telecommunications traffic command centers, power dispatching, auditoriums, high-end conference rooms in corporate hotels, etc.

The company maintains rapid development with the concept of continuous innovation and team advancement. We can provide screen products including manual hanging screens, electric screens, tripod screens, wall mounted screens, quick folding screens, floor pull portable screens, seat type table screens, and large engineering screens. We have also developed and manufactured up to 30 different types of screen fabrics with different characteristics to choose from. There are hundreds of series and thousands of varieties of screens, as well as various professional projection devices and demonstration tools, fully capable of meeting various needs. SCREEN GEMS has long been used in the market as a synonym for screens. One of the representatives of high-end screen brands in the world, as a high-quality projection screen manufacturer, we mainly provide screen sales and services to Europe, the United States and other regions.

In 2010, SCREEN GEMS entered China and quickly established a distributor system in over 100 cities, providing comprehensive services and support including products, technology, training, marketing, retail concepts, and more. The company's production base in China has an annual production capacity of 80000 sets of products, including home theater projection screens, cinema bar and cinema K-projection screens, large cinema screens, large engineering projection screens, portable outdoor quick folding screens, projector hangers, HDMI cables, and other products, which are sold well worldwide. As an innovative enterprise, SCREEN GEMS has always delved into various aspects of screen materials, structures, optical and acoustic characteristics, and its products have obtained multiple national patents for projection screens; The company operates in a systematic, standardized, and standardized manner to ensure long-term and stable provision of high-quality products.

In the future, without hesitation, SCREEN GEMS will make positive contributions to promoting the development of smart homes and audio-visual entertainment in China.
